Subject: PAT September Professional Learning Communities Resources

This message is being sent on behalf of Lana Brooks, Director, Missouri Department of Elementary & Secondary Education (Department) - Early Learning Section.

The Early Learning section at the Department would like to thank everyone who attended our September Parent as Teachers (PAT) Professional Learning Community (PLC): "Planning our Future with Parents as Teachers." We appreciate your feedback and questions as together we continue to strengthen the partnership between school districts, the Department and the Parents as Teachers National Center. The Department compiled various questions that we received during our September PLC's into a Question & Answer document. We hope this information will assist you in developing your district's plan for service delivery while working towards high quality services for Missouri families. For individuals who were unable to attend the Department's latest PLC, please take the time to look at the attached references and resources. If you have any further questions please contact your Early Learning Supervisor.

RESOURCES:

Question & Answer Document – developed from the field during the September regional PLC meetings

Missouri Planning Tool – assist programs with developing a plan for service delivery

Program Goal Sheet – assist programs with developing goals at the local level

Parents as Teachers Timeline – a document outlining important timelines for school districts

Zero to Three Video – a resource for local programs school readiness (Available on the following website under the Correspondence heading: <http://dese.mo.gov/quality-schools/early-learning/parents-teachers>)
