1. INTRODUCTION AND GENERAL INFORMATION

The Department of Elementary and Secondary Education (DESE) is authorized by the Early Childhood Development Education and Care Fund to administer a program of competitive grants to governmental entities, public schools, or private agencies for voluntary, early childhood development, education, and care programs serving children in every region of the state not yet enrolled in kindergarten. This rule sets forth the general provisions governing those programs.

1.1 The Early Childhood Development Education and Care Fund, pursuant to section 161.215, was created to give parents meaningful choices and assistance in choosing the child care and education arrangements that are appropriate for their family. “The fund shall be used to support programs that prepare children prior to the age in which they are eligible to enroll in kindergarten, pursuant to section 160.053, RSMo, to enter school ready to learn. All moneys deposited in the early childhood development, education, and care fund shall be annually appropriated for voluntary, early childhood development, education and care programs.....” The Department of Elementary and Secondary Education has designated their portion of the fund to promote high quality early care and education programs for children one or two years from kindergarten eligibility.

1.2 This grant is for programs that will result in high quality early care and education for age eligible children. Age eligible children are defined for the purposes of the grant as children who are one or two years from kindergarten eligibility. To be eligible for kindergarten a child must be five years old before August 1st of the program year.

The grant must be identified as an **EXPANSION OF PRESCHOOL SERVICES:** The intent of these funds is to serve additional age eligible children either as a new program or as an expansion of an existing program. If preschool services are in existence, MPP funds may be used only for expenditures incurred because of the expansion, NOT for existing preschool program expenditures. Funds awarded to public schools may be used to license existing preschool classrooms as needed.

1.3 Although an attempt has been made to provide accurate and up-to-date information, DESE does not warrant or represent that the background information provided herein reflects all relationships or existing conditions related to this grant.

1.4 Programs that are awarded and have successfully completed the initial award can be eligible for a maximum of 4 renewal awards.

2. SPECIFIC REQUIREMENTS

2.1 Grant Requirements:

- 2.1.1 Renewal grantees are governmental entities, public schools or private agencies who have successfully completed the previous year's contract.
- 2.1.2 Religious entities are not eligible to apply to DESE for funds based on the *Missouri Constitution*, Article IX, Section 8.

Licensing

- 2.1.3 All grantees must have the appropriate Child Care Center license, granted from the Missouri Department of Health and Senior Services (DHSS), Section for Child Care Regulation and continue to maintain it throughout the entire grant period and all renewal periods.
- 2.1.4 The grantee cannot decrease a program's current license capacity for any age group in order to increase the license capacity of age-eligible children for the purpose of receiving MPP funds.
- 2.1.5 Grantees must be in good standing with DHSS and should be operating at full licensed capacity.

Program Structure

- 2.1.6 The preschool program must provide **6.5 hours daily** of developmentally appropriate educational activities for each child enrolled between the hours of 7:30 a.m. and 5:00 p.m.

In addition to the hours of educational activities, **a minimum of 30 minutes a day should be scheduled for the lead teacher and the assistant teacher for the purpose of planning, parent teacher conferences, etc.**

- 2.1.7 The grantee must provide a preschool program that is in operation for five full days a week, for a 12 month period with all enrolled children attending full day, five days a week.

Governmental entities or public school districts only can provide preschool services for no less than the school year.

Public school districts who implement a four day school week for their K-12 grade levels can also implement a four day schedule for the MPP program. The length of day should mirror the K-12 day.

Public school districts awarded prior to FY16 may continue to provide a half day option, a minimum of three hours.

- 2.1.8 The MPP classroom must serve a minimum of 10 age-eligible children per classroom and have no more than 20 age-eligible children in a classroom. **Only age-eligible children should be served in the MPP classroom.**
- 2.1.9 All children participating in a public school MPP program must have a MOSIS number. This is a randomly generated state identification number.
- 2.1.10 The program must implement a sliding fee scale to ensure all families, regardless of income, have an opportunity to participate.

2.1.11 The grantee must collaborate with the local school district(s) to offer Parents as Teachers (PAT) services to MPP families. These services must include, at a minimum, family personal visits, group connections, developmental screenings and access to the resource network.

The grantee must ensure an annual health and nutrition screening and a developmental screening is provided for each MPP child.

2.1.12 The program must offer no less than two parent-teacher conferences annually.

2.1.13 The program must obtain Missouri Accreditation (MOA) or the National Association for the Education of Young Children (NAEYC) Accreditation prior to the beginning of year four of operation.

Staff

2.1.14 MPP staff must meet the teacher qualifications outlined in Section 2.2.5.

2.1.15 Classrooms with 10 children must have a lead teacher. An assistant teacher is required if more than 10 children are enrolled in the MPP classroom.

2.1.16 Staff in the MPP classrooms must complete training (see section 2.2.6) and implement the curriculum in the classroom. Training should be completed within six months after hire of new lead teacher(s) or assistant teacher(s).

- Staff must participate in continuous professional development associated with the selected curriculum model.

2.1.17 Staff in the MPP classroom(s) must be trained in the two-day Desired Results Developmental Profile (DRDP) training sponsored by DESE. Teachers and assistant teachers will document each child's growth and development using the DRDP. This information will be used to guide learning activities in the classroom.

2.1.18 All staff in the MPP classroom(s) will participate in the MPP Learning Communities including on-site consultation and a minimum of two regional professional development opportunities each, per program year.

2.1.19 Staff have written individualized annual professional development plans (evaluations).

Administration

2.1.20 All public schools must implement PAT services as required in the Early Childhood Development Act Administrative Manual.

2.1.21 All directors/administrators should attend the curriculum training and the DRDP training.

2.1.22 All programs must have the ability to communicate electronically to inform DESE of changes to the program that impact delivery of service or compliance including but not limited to, change in staff, enrollment or licensing issues.

2.1.23 The grantee must maintain records and fiscal information (see sections 2.4 – 2.6).

2.1.24 The grantee must indicate a desire for expanding and improving preschool education through a **collaborative** system, which requires a community advisory committee and a community needs assessment. (see section 2.2 Program Development Requirements)

- 2.1.25 The plan must reflect the results of the **community needs assessment** rather than an “opportunistic” approach to securing materials, equipment, etc. (see section 2.2 Program Development Requirements)
- 2.1.26 The MPP funds cannot be used to supplant or replace any existing preschool program or staff.

Eligibility for Future Funding

- 2.1.27 Private agency grantees who failed to meet the requirements of a previously awarded MPP will not be eligible for application for five years after the year in which they defaulted.

2.2 Program Development Requirements:

- 2.2.1 The grantee must agree and understand that DESE must have complete and total approval authority of the grantee’s program planning or any part thereof and must have the expressed right to modify, change, or delete all or any part of the plan at any time.

- 2.2.2 The grantee may be required to develop and submit a new or revised plan as requested by DESE. The grantee must prepare and submit all such future program plans within a time frame stipulated by DESE.

- 2.2.3 **Community involvement.** A community advisory committee must assist in planning the preschool program for age-eligible children and in completing the community needs assessment.

- 2.2.4 **Community-based planning.** Strong community commitment, leadership, and planning are critical to the success of the programs and services offered under the MPP.

- A. Step I - Administration. The grantee appoints an administrator who has both leadership ability and a strong commitment to early childhood education, especially preschool education. This administrator must -

- be knowledgeable and respectful of preschool opportunities within the community;
- set goals and coordinate implementation timetables;
- analyze the results of the programs;
- exercise sufficient authority within a collaborative framework to accomplish the desired results;
- be knowledgeable about business practices necessary to successfully sustain the program; and
- report regularly to the community advisory committee and should be prepared to manage a program organizational structure consisting of several different types of operation.

- B. Step II - Community Advisory Committee. The community advisory committee, whose membership of citizens representing a variety of community organizations, is established. Primary responsibilities of the community advisory committee are to -

- Assist in gathering information needed to complete the community needs assessment;
- Make recommendations on the goals and objectives of the MPP;
- Assist on options for coordinating programs and services among community, school, and other preschool programs; and

- Serve as a resource.

C. Step III - Program Design. Based on the community needs assessment, the program will be designed to meet the needs of each community.

2.2.5 **Staff qualifications.** All preschool programs funded by the MPP must utilize lead teachers and assistant teachers who have one of the following minimum qualifications at the time the program begins operation or at the time of hire. These qualifications must be maintained throughout the grant period.

A. Lead teacher -

- Early Childhood Teacher Certification;
- Early Childhood Special Education Teacher Certification; or
- A four-year college degree in child development

B. Assistant teacher, at a minimum -

- Two-Year Associate Degree in Child Care/Education
- Child Development Associate (CDA) Credential™; or
- 60 college hours with a minimum of **nine** college credit hours in early childhood, child development, or child/family related courses and experience working in a program with young children and their families.

*Assistant Teachers hired prior to July 1, 2018 may meet 60 college hours with a minimum of **three** college credit hours in early childhood, child development, or child/family related courses and experience working in a program with young children and their families.*

C. Substitute teacher -

- Must meet requirements set forth by the Missouri Department of Health and Senior Services, Section for Child Care Regulation and accrediting source.

2.2.6 **Curriculum models.** Preschool programs must implement a nationally recognized preschool curriculum model that is approved by DESE. All staff involved in the MPP must be trained in the curriculum model. It is also highly recommended that the director/program administrator be trained in the chosen curriculum model. All curriculum trainings must be provided by the curriculum source. Programs must contact the source to schedule trainings. Any training not scheduled through the source will not be funded and will not meet the requirement. The selected preschool curriculum models meet the following criteria:

- Based on valid research;
- Have positive evaluation results;
- Provide ongoing professional development; and
- Developmentally appropriate for age-eligible children.

The current approved curriculum models are listed below along with the accepted training pieces that are required. On-line training for these required pieces is not allowed.

- 2.2.7 **Accreditation.** Programs are required to obtain accreditation from either the MOA or NAEYC. The program must obtain accreditation prior to the beginning of year four of operation. MPP operating in a center will be required to accredit the entire center including the infant/toddler classrooms and school age classrooms.

When choosing an accrediting source, programs should consider the requirements of each accrediting source and how they align with the MPP requirements and their program.

2.2.8 Program Planning:

- A. **Parent Advisory Committee.** Programs are required to establish an advisory committee to engage parents with children in the MPP classroom(s). This advisory committee must meet at least twice annually. It is important that the grantee develop a protocol for the size and structure of the committee including member responsibilities and establishing an overall purpose. Membership should be reflective of the community. The committee can have several functions that support the established purpose. Some grantees may choose to broaden their membership to include program staff and/or key stakeholders in the community, but must be reflective of parent perspectives. Another option may be to combine the MPP Parent Advisory Committee with other committees that have similar goals and structure.

Documentation must be on file that includes a list of members, sign-in sheets, dates of meetings, and meeting minutes. Programs that combine advisory committee's must ensure that the MPP program is included as a focus area in a minimum of two meetings annually. The focus must be documented in both the agenda and minutes.

- B. **Funding Plan.** The plan must demonstrate funding from a variety of sources and address sustainability of the program once MPP funds are no longer available. Information must include how program growth issues will be addressed such as recruitment methods. A sliding fee schedule or sliding scale scholarship based on family income is required for families whose income does not exceed 185% of the federal poverty level.
- C. **Child Development, Education, and Care Plan.** The plan must be appropriate to meet the needs of children served in the MPP program. The plan should describe how the preschool program will be designed and how it will meet the needs of preschool children as identified from the needs assessment. Information must include how program growth issues will be addressed such as recruitment methods. A copy of the proposed physical classroom design including measurements and the number of children to be served along with a daily schedule must be submitted.

The plan must address the transition issues of children moving from one program to another such as, from home to school or from preschool to kindergarten. A plan should be developed and implemented that will make these transitions as smooth as possible for all involved. The plan may include opportunities to share information between programs; informational packets for parents; kindergarten orientation days; meet the teacher nights; home visits by preschool and kindergarten teachers; visits to child care centers and Head Start programs by the kindergarten teachers, etc.

The plan must include how the preschool program will collaborate with community organizations and resources. Some examples may be working with the public library to provide a story hour, having a volunteer grandparent work in the classroom, having a safety program provided by the local police department, etc.

All MPP children must be provided with an annual health and nutrition screening and a developmental screening. We encourage programs to work with existing screening opportunities that may already be in place such as PAT, County Health Department, or Head Start.

- D. **Professional Development Plan.** Professional development opportunities include college-credit courses through T.E.A.C.H. Early Childhood Missouri[®], follow-up/advanced training of the selected curriculum model provided only by the approved curriculum source, professional conferences, seminars, consultants, and the DESE required two regional meetings. MPP funds only support professional development opportunities that are above and beyond the DHSS required clock hours for child care providers. The plan should include a list of the specific professional development opportunities to be provided. Evidence of continuous professional development associated with the selected curriculum model must be included each year in the plan.

Professional development opportunities should reflect the general philosophy of the selected curriculum model.

E. **Parent Education, Involvement, and Communication Plan.** The plan must address how parents will be informed about their child's development, opportunities to be involved in the preschool program and how the preschool program will communicate with parents on an ongoing basis. **Preschool programs must collaborate with the district's Parents as Teachers program for parent education.** MPP funds may be used to support PAT family personal visits to families of children participating in the MPP classroom, at the state reimbursement rate. Parent involvement could include serving on the parent advisory committee, classroom volunteer, forming a preschool parent organization, etc. Communication with parents could include newsletters, parent-teacher conferences, notes home, phone calls, etc. Other options for increasing parental involvement and family strengths may include the following:

- Friendships and mutual supports with other families,
- Strengthening parenting skills within families,
- Responding to family crises,
- Linking families to services and opportunities in their community to meet the families' needs, and
- Facilitating children's social and emotional development.

F. **Community Plan.** The community plan includes collaboration/partnership efforts and activities among other licensed early care and education providers who are serving age-eligible children, located within the grantee's community. This collaboration or partnership may include joint professional development opportunities such as early childhood speakers/workshops, early childhood transition activities, and other community activities such as "Week of the Young Child", parenting fairs, child health fairs, and community library activities, etc. For activities that can be included in the MPP budget, refer to Section 2.4.2 Purchased Services.

2.3 Funding:

2.3.2 Payments will not be made until the program has met grant requirement 2.1.3 and 2.1.5 in that the program is licensed and a copy of the appropriate child care license granted from the Missouri Department of Health and Senior Services, Section for Child Care Regulation is on file with Early Learning Section, Missouri Department of Elementary and Secondary Education. The grantees must also be in good standing with DHSS and should be operating at full licensed capacity with full enrollment in the MPP classroom.

All substitutes will be reported under salaries as well. Salary for an assistant teacher will be paid by MPP funds when enrollment exceeds 10 children per classroom. Salaries and benefits must be commensurate with other professionals in similar positions. MPP teachers in a public school setting must receive a teaching contract and be placed on the same teacher salary schedule as the districts K-12 teachers. All other teachers' salaries and benefits must be commensurate with other professionals in similar positions. **No other salaries will be allowed.**

Classroom equipment, materials and supplies must be selected from the *Materials and Supplies Guide for Early Learning Classrooms*, Attachment C, for the sole use in the MPP classroom. The quantity of items selected must reflect the number of children the program anticipates serving through the MPP classroom(s).

Other costs that are allowable under the Materials and Supplies category are those expenditures associated with becoming licensed. These expenditures must be under \$1,000 and be outlined by the child care specialist assigned by DHSS. **Please note the following exceptions of the Materials and Supplies category.**

- If televisions and DVD/VCRs are used in the classroom it must be for **educational purposes ONLY and utilized on a very limited basis**. MPP funds **WILL NOT** be allowed for these expenditures.
