

In preparation for your upcoming persuasive essay I'd like for you to create a plan of attack identifying the following information:

1. In a complete sentence identify the issue you intend to address.
2. Who does this problem affect and how does it affect them?
3. Will an administrator think this is an issue too? Why? (If the answer is no, you need to pick a different issue!).
4. List some possible solutions to this issue.
5. Put an asterisk (\*) by the most plausible solution.
6. What proof might you offer to support your solution?
7. Where might you get that proof?
8. Map out the information you need, how you are going to get it, from whom you are going to get it and what questions you might ask an interviewee.
