Check List

Access to On-Line Systems

# User Manager

- ❑ **Make sure you know who has User Manager authority.**
- ❑ Every district should have at least one User Manager (UM).
- ❑ The designated UM for the district/agency can make additions/changes for staff members to permit them to perform the functions described.
- ❑ Having this capacity in the district is a timesaver as district staff will not have to submit forms to the department and wait for the department to process them.

# List of Applications and Users

- **Hard copy list provided today.**

### Accountability

State and federal accountability data inform the public of the progress of all public schools and school districts toward enabling all students to meet state academic achievement standards.

## Welcome to the new Missouri Comprehensive Data System

The MCDS is a new resource provided by the Missouri Department of Elementary and Secondary Education that allows school personnel and the public to access education-related data.

The data made available to the public masks or hides data for groups with 10 or fewer students to protect confidential information about individual students, as required by federal law. The MCDS is still in development. In the coming months, a secured area of the website will become available to authorized school personnel to access unmasked school district and school building data.

Three tools are available to assist you:

- Quick Facts for basic reports and documents.
- Guided Inquiry for summary reports allowing simple filters.
- Advanced Inquiry for in-depth research and analysis.

Thank you for your interest in Missouri public education.
