

Directions for Menu Worksheet

*****Updated 12/14/12 with SY 2012-13 flexibilities*****

Welcome to the FNS Menu Worksheet, a tool designed to assist School Food Authorities (SFAs) in demonstrating that each of the menus meets the new meal pattern for the National School Lunch Program (NSLP) and School Breakfast Program (SBP).

General Information:

- Six cents certification is district- based, and all menu types within the district must be submitted for certification. Individual schools may *not* apply for six cents reimbursement.
- Every unique breakfast and lunch menu type offered must be entered into the worksheet, using a new worksheet for each menu.
- Menu type examples: Grade K-5 breakfast, K-5 lunch, Grade 6-8 breakfast, etc. USDA is providing a total of 8 different menu worksheets (4 for lunch, 4 for breakfast).
- Refer to FNS memorandum SP-31-2012 for detailed information on *distinct menus*.
- *This worksheet does NOT assess compliance on a per-serving line basis- all reimbursable meals must be entered in one worksheet (one menu type). Separate from the menu worksheet, SFAs must sign an attestation stating each serving line is in compliance with the meal pattern.*
- Worksheet is programmed based on a 5-day school week. Alternate-day worksheets are also available on the USDA website. SFAs should utilize an alternate worksheet if operating on an alternate schedule on a regular basis (SFAs should NOT submit a menu worksheet for a holiday week as this does not represent the typical week of meals).
- Certification is based on *offered* menus- do not consider Offer versus Serve options. Report the full offering of fruits and vegetables on the menu, NOT what a child typically selects. The *menu worksheet* is not weighted.

****For Breakfast, follow instructions that follow below for Lunch.*

-However, there are no new requirements for breakfast in SY 2012-13 (except milk content/variety). Therefore, existing requirements for four components (Grains, Meat/Meat Alternates, Fruits/Vegetables, and Milk) are assessed. For early implementation, contact your State Agency for further instructions.

-DISREGARD instructions related to whole grain-rich grains, grain-based desserts, fruit and vegetable juice, and vegetable subgroups.

Special Considerations

-Some vegetables and fruits do not credit on a volume as served basis (i.e. 1 cup credits as 1 cup).

-Dried fruit- twice the volume as served

-Raw leafy greens- half the volume as served

-Tomato paste- refer to manufacturer information (typically twice volume served)

-Conversion *must be made first*, and CREDITABLE amounts entered into the certification worksheet. A yellow warning box appears when leafy greens or tomato paste is selected from the vegetable subgroups list, reminding users to enter creditable amounts.

Example:

Menu: Salad with 2 cups of romaine lettuce

Report: Select “1” cup of vegetable (dark green) from drop-down box

-To ensure data entered is not lost, remember to save the information periodically.

Getting Started:

Materials needed:

-1 week menu (5 days)

-Portion sizes for all reimbursable menu items

-Contribution information for each menu item (CN Labels, [USDA Foods Fact Sheets](#))

-Standardized Recipes

-Production Records

- [Food Buying Guide](#)

- [Food Buying Guide Calculator](#)

- [CNPP Vegetable Subgroups List](#) (page 5)

-At a minimum, complete a separate Certification worksheet for each of the three grade groups (K-5, 6-8 and 9-12). A separate Certification worksheet has been developed for breakfast and lunch. There is also a K-8 worksheet available if a single menu is used, as well as a 7-day menu for each grade group.

-An SFA submits menu worksheets for each distinct menu for both breakfast and lunch.

-If there is more than one menu type per grade group, SFAs must submit a different worksheet for each menu type. For example, if there are two different elementary school menus, two K-5 worksheets are required.

-If multiple schools within the same grade group are served by a single menu, only *one* worksheet is required.

-Menu worksheets should be sent to the State Agency for review and final approval.

Menu Worksheet Orientation

-Open the Excel file corresponding to the appropriate grade group and menu. Example instructions here are based on Grade 9-12 Lunch.

-Each Excel file has twelve tabs located at the bottom of the spreadsheet, including the Simplified Nutrient Assessment (optional).

-Each tab is labeled with the following titles:

-*Menu Worksheet Instructions*: quick review of the worksheet instructions. On the other tabs (All Meals, Monday, etc) there are hyperlinks labeled “Go to Instructions” that will take the user back to this tab

-*SFA Notes*: blank text box for SFA to enter comments for State Agency reviewers

-*All Meals*: first tab requiring data entry

-*Optional VegBar*: to report daily offerings from a vegetable/salad/garden bar

-*Monday*: to report meals and vegetable subgroups offered this day

-*Tuesday*: as above

-*Wednesday*: as above

-*Thursday*: as above

-*Friday*: as above

-*Weekly Report*: results of weekly meal pattern requirement check

-*Nutrient Instructions (optional)*: for Simplified Nutrient Assessment; see separate instructions document

-*Nutrient Assessment (optional)*: for Simplified Nutrient Assessment

- Click on the tab at the bottom of the spreadsheet to transfer to a different tab.

-Directions below begin with the “All Meals” spreadsheet, which requires the bulk of information input.

***Follow these steps in order for accurate results. Accuracy of menu certification results are based on accuracy of information entered.

“SFA Notes” tab

-Clicking on the text box inside this tab allows SFAs opportunity to submit comments to the State agency during certification reviews.

-SFAs electing to participate in the SY 2012-13 flexibility regarding weekly maximums for the grains and/or meats/meat alternates component (see page 13 for additional information) ***should inform State agencies of this election in the SFA Notes tab.***

“All Meals” Tab

-Title of this worksheet indicates meal period (Breakfast or Lunch) and grade group. *Ensure the correct version of the Certification worksheet is used for the menu.*

-Enter the SFA name and menu number (for SFAs with multiple menus within a single grade group). If only one menu per grade group, type “1.”

-Column 1 lists Meal Names (all meals offered across the week).

-Other columns list various food components within the meal pattern- Meat/Meat Alternate (column 2), Grains (3), Whole grain-rich Grains (3a), Grain-based Desserts (3b), Fruit (4), Fruit Juice (4a), Vegetables (5), Vegetable Juice (5a), and Fluid Milk (6).

-Food component columns also list appropriate units of measure (ounce equivalents, cups, etc).

-Components are color-coded (e.g. Fruit and Fruit juice = purple) throughout worksheet.

-Just above columns 1 and 3 is a hyperlink to the Food Buying Guide Calculator, above columns 3a and 3b is a hyperlink to the Menu Worksheet Instructions tab, and above columns 4a and 5 is a hyperlink to the Weekly Report tab.

-At the far right of the screen the section “Optional Tools to Assist in Fraction and Decimal Calculations” can assist SFAs in adding fractions and converting between decimals and fractions.

Column 1: Meal Name

***IMPORTANT: For this *menu worksheet only*, SFAs must list *reimbursable meals offered on the menu*. Each reimbursable meal consists of all required food components: any

grain/meat/meat alternates in a main and/or side dish, minimum total amount of fruit offered with this meal, minimum total amount of vegetables in a main and/or side dish, and amount of milk.

-All *unique* reimbursable meals offered over the course of the entire week must be entered- one meal per row of the worksheet. If the same main dish is offered with the same quantity of vegetables, fruit and milk is available every day, enter it only once (if *types* of fruits, vegetables, or milk change, still enter on only one row).

Meal Name Example 1:

Meal offered Monday: Tuna sandwich, ½ cup corn, ½ cup carrots, 1 cup peaches, fat-free milk

Meal offered Wednesday: Tuna sandwich, 1 cup green salad, 1 cup apples, fat-free flavored milk

Result: Enter “Tuna sandwich” **once** in Column 1, with 1 cup vegetables, 1 cup fruit, 1 cup milk

-However, if the same main dish is offered with *different* quantities of fruits or vegetables, it must be entered as two separate entries in Column 1 (two rows).

Meal Name Example 2:

Meal offered Monday: Tuna sandwich, ½ cup corn, ½ cup carrots, 1 cup peaches, fat-free milk

Meal offered Wednesday: Tuna sandwich, ½ cup green salad, 1 cup apples, fat-free flavored milk

Result: Enter “Tuna sandwich with 1 cup veggies,” with 1 cup vegetables, 1 cup fruit, 1 cup milk AND enter “Tuna sandwich with ½ cup veggies,” with ½ cup vegetables, 1 cup fruit, 1 cup milk

-Vegetable subgroups and *types* of milk will be recorded on a different tab.

- Type name of complete reimbursable meal. To assist the State reviewer, enter the name of the main dish to match the menu submitted for certification. (e.g. if vegetable pizza is called “Garden Power Flatbread,” type “Garden Power Flatbread” into worksheet).

Meal Name Example 3:

Meal #1:

Chicken Nuggets (5 pieces) – 3oz meat, no creditable breading

WW Roll – 2oz grain (WGR)

Honey Sauce – 2 TBSP

Mixed Fruit Cup – ½ cup

100% Orange Juice – 4 oz

Steamed Broccoli – ½ cup

Baby Carrots – ½ cup

Milk – 8 oz

Result: Enter “Chicken nuggets w/honey sauce and roll” in column 1 (NOT all components)

- Note: worksheet example meal, “Chicken Nuggets,” DOES NOT add to daily or weekly totals.

-For items incorrectly entered in the Meal Name column, click the box and select backspace to clear all text from the box.

Entering Meal Components into the “All Meals” Spreadsheet

-Once the meal name for Meal #1 has been entered, the meal components and corresponding serving sizes must be entered.

-NOTE: For all drop-down menus in the following sections, to “clear out” an erroneous selection, click on the box with the incorrect data, scroll UP to the empty space option (just above 1/8) and select. This will clear out any information from the drop-down box.

Column 2: Meat/Meat Alternate (ounce equivalents)

- Enter amount of meat/meat alternates offered in the entrée and/or side dishes in ounce equivalents (to the nearest quarter ounce).

- Do NOT enter text (such as “4 oz”)- this will result in an error message.

Column 3: Total Grains (ounce equivalents or grain/bread servings)

-Enter amount of grains in the reimbursable meal. Include ALL whole-grain rich grains, non-whole grain-rich grains, AND grain-based desserts here.

-Because there is wide variation in serving sizes, type in the correct serving sizes.

-All grains are measured in either ounce equivalents or grain/bread servings and must be *rounded down to the nearest quarter*. Make this calculation prior to entering in worksheet. The worksheet also makes this adjustment automatically.

-In SY 2012-13, SFAs may use ounce equivalents (based on 16 gram creditable grain) OR grain/bread serving (based on 14.75 grams) OR a combination. For SY 2012-13, consider 1 grain/bread serving = 1 ounce equivalent and add together (conversions to oz eq not required).

Grains Example 1:

Entered: Total grains = “1.7”

Result: Worksheet rounds to “1.5”

Grains Example 2:

Meal offers 1 slice bread (1 grain/bread serving) and 0.5 oz eq whole grain-rich cookie

Result: 1 grain/bread + 0.5 oz eq = 1.5 (enter into column 3)

-Do NOT enter text (such as “4 oz”)- this will result in an error message.

-Consider grains in the main dish (bun, breading, pasta), side dishes (i.e. rice, breadstick), and any other additional grains available to the student such as sliced bread and/or desserts.

-Breading *may* be credited in SY 2012-13, but is not required (refer to [SP 30-2012](#)).

- All grains in the meal **MUST** be included in this column; non-credited extras not allowable.

Column 3a: Whole Grain-Rich Grains (ounce equivalents or grain/bread servings)

-Enter quantity of whole grain-rich grains contained in meal (Meal #1). Report in *ounce equivalents* (e.g. 1.25 oz eq roll) OR grain/bread servings (e.g. roll with 1.25 grain/bread equivalents).

-If no whole grain-rich grains in this meal, either leave cell blank or type in zero (“0”)

Grains Example 3:

Meal offers 1 slice enriched bread (1 grain/bread serving) and 0.5 oz eq whole grain-rich cookie
Result: 0.5 oz eq whole grain-rich grains (enter “0.5” into column 3a)

Column 3b: Grain-Based Desserts (ounce equivalents or grain/bread servings)

- Enter quantity of grain-based desserts offered in meal (Meal #1). Report in *ounce equivalents* (e.g. 0.5 oz eq cookie) OR grain/bread servings (e.g. cookie with 0.75 grain/bread).

-If no grain-based desserts in this meal, either leave cell blank or type in zero (“0”).

Grains Example 4:

Meal offers 1 slice enriched bread (1 grain/bread serving) and 0.5 oz eq whole grain-rich cookie
Result: 0.5 oz eq grain-based dessert (enter “0.5” into column 3b)

Column 4: Total Fruit (cups)

-Use drop down menu to enter total minimum quantity of fruit offered with this meal. Options range from 1/8 cup (smallest creditable amount) to 2 cups.

-Total fruit includes *both* fruit pieces and fruit juice.

-Crediting calculation for dried fruit must be done PRIOR to entering fruit quantities in worksheet- enter only CREDITABLE amounts.

Fruit Example 1:

Meal offers $\frac{1}{2}$ cup mixed fruit and 4 oz ($\frac{1}{2}$ cup) 100% orange juice

Result: $\frac{1}{2}$ cup fruit + $\frac{1}{2}$ cup juice = 1 cup fruit (select “1” in column 4)

Fruit Example 2:

Meal offers $\frac{1}{4}$ cup of boxed raisins

Result: $\frac{1}{4}$ cup raisins = $\frac{1}{2}$ cup fruit (select “ $\frac{1}{2}$ ” in column 4)

Column 4a: Fruit Juice (cups)

-Use drop down menu to enter maximum quantity of full-strength, 100% fruit juice offered with this meal. Options range from $\frac{1}{8}$ cup (smallest creditable amount) to 2 cups.

-Juice is also included in Column 4, but NOT added with Column 4a (no double-counting).

- If no fruit juice offered in this meal, leave drop-down box blank.

Column 5: Vegetables (cups)

- Use drop down menu to enter total minimum quantity of vegetables offered with this meal. Options range from $\frac{1}{8}$ cup (smallest creditable amount) to 2 cups. If more than 2 cups of vegetables are offered in this meal, report 2 cups.

-Total vegetables include *both* vegetable pieces and vegetable juice.

-Do not consider vegetable subgroups; report total amounts of vegetables offered with meal.

-If several vegetable choices are offered, report what the child is able to **take**.

Vegetable Example 1:

Meal offers 4 vegetable choices (each $\frac{1}{2}$ cup), students instructed to “Choose two”

Result: Report amount of vegetables when child takes two choices (enter “1” in column 5)

Vegetable Example 2:

Meal offers spinach pizza ($\frac{1}{4}$ cup spinach) and side of carrots ($\frac{1}{2}$ cup).

Result: Add vegetable offerings together ($\frac{1}{4}$ cup plus $\frac{1}{2}$ cup = $\frac{3}{4}$ cup, select “ $\frac{3}{4}$ ” in column 5).

-REMINDER: Conversion *must be made first*, and CREDITABLE amounts entered into the certification worksheet. A yellow warning box appears when leafy greens or tomato paste is selected from the vegetable subgroups list, reminding users to enter creditable amounts.

Column 5a: Vegetable Juice (cups)

- Use drop down menu to enter maximum quantity of full-strength, 100% vegetable juice offered with this meal. Options range from 1/8 cup (smallest creditable amount) to 2 cups.
- Juice is also included in Column 5, but NOT added with Column 5a (no double-counting).
- If no vegetable juice offered in this meal, leave drop-down box blank.

Column 6: Milk (cups)

- Enter minimum amount of milk offered. Report in *cups*- not ounces. If ounces are entered (e.g. "8"), a warning prompt pops up to check if value is accurate.
- Information entry for Meal #1 is now complete. Repeat Step 5 for all reimbursable meals available within the 5-day week.
- There is space for up to 50 meals offered in a week-contact the State for an alternate (expanded) form if needed.

Optional Vegetable Bar Tab

- Use this tab ONLY if there is a vegetable bar offered for the week with the SAME vegetable subgroup offerings multiple times over the week.
- Vegetable bar must be accessible to ALL students for the days in which it is offered.
- Select the name and quantity of each vegetable offered on the vegetable bar in the appropriate subgroup. *The quantity is the minimum planned offering amount for each student.*
- Menu planners must predetermine what the offered amount is- options for implementing this include pre-portioning, signage encouraging students to "select 3," etc. Offered amounts may also be based on historical daily disappearance data.
 - "Unlimited" portions cannot be assessed for component and nutrient requirements

-For full instructions on reporting of vegetables by subgroup, refer to Vegetable Subgroup Reporting section within the MONDAY Tab instructions.

-At the far right of the screen the section “Optional Tools to Assist in Fraction and Decimal Calculations” can assist SFAs in adding fractions and converting between decimals and fractions.

-If a vegetable bar is offered as an entire reimbursable meal (contains grains, meat/meat alternates, and fruit), enter this meal in the “All Meals” tab, naming it something similar to “Salad Bar Meal” and listing the food component contributions.

MONDAY Tab

-Using the drop-down boxes in the “Meal Name” column, click on meals offered on MONDAY (one meal per row). If 10 meals are offered, there should be 10 rows of information filled in.

-The new school meal pattern requires that for schools with multiple serving lines, all lines meet the daily and weekly meal pattern requirements. However, this worksheet does NOT assess compliance on a per-serving line basis- all reimbursable meals must be entered in one worksheet (one menu type). Separate from the menu worksheet, SFAs must sign an attestation stating each serving line is in compliance with the meal pattern.

-Therefore, list all meals available to a child, on any line on any given day.

-To remove a meal selected in error: click on the box, scroll up to the very top, and select the empty space option. This will clear out all information for that specific row.

- Enter up to 20 meals offered per day- if more than 20 meals are offered per day, contact the State Agency for an expanded version of this worksheet.

-Once the meal is selected, other columns within that row automatically fill in from data previously entered in the “All Meals” tab.

Meat/Meat Alternate, Grain, Fruit, and Vegetable Component Check

-Columns are color-coded, matching columns in the “All Meals” tab. The first column shown (in blue) is “Meat/Meat Alternate.” There are two columns for this component.

-The first column shows the quantity of the component, previously typed in.

-The second column for meat/meat alternate, colored yellow, calculates if the meal selected meets the daily requirement this component.

Component Check Example:

Offered meal is for lunch in grades 9-12 and daily meat/meat alternate requirement = 2 oz eq.
In “All Meals” tab, user typed in Chicken Nuggets w/ honey sauce (3 oz eq meat)

Result: “Daily M/MA Requirement Check 2 oz eq” column turns green and reads “Yes”

-If the entered quantity does not meet the daily minimum, the Requirement Check column turns red and reads “No.”

-The same applies to all other components- Grains, Fruit, Vegetables, and Milk. There is NOT a daily check for whole grain-rich grains, grain-based desserts, or juices.

-Once all meals offered on Monday have been added, the worksheet will report if each meal meets all DAILY requirements. Weekly requirement assessment is carried out in a future step.

Milk Component Check

-Scroll to the right side of the screen to the “Milk Type” table (colored brown).

- Click the small checkbox next to each type of milk offered on Mondays. Check one or more boxes. When finished, the yellow column in this section turns green (Yes) or red (No).

Vegetable Subgroup Reporting

-The final step for MONDAY is reporting vegetable subgroups offered. Scroll to the right until the “Creditable Amount of Each Vegetable Subgroup Offered on Monday” table is viewable.

***If a salad/veg bar is offered this day, select the check box in this section to indicate this!

-Beginning with “Dark Green” (first green column), click the *first* drop-down box to select the LARGEST amount of dark green vegetables offered to any one student.

-Leave this column blank if dark green vegetables are not offered.

Vegetable Subgroup Example 1:

Monday menu offers a spinach pizza (¼ cup spinach) and a side of broccoli (½ cup broccoli)
Child has opportunity to select pizza and broccoli

Result: Add amount of spinach and broccoli (¾ cup dark green) = select ¾ in first drop down box

(Largest amount of dark green vegetables a student can select.)

-If two items are offered and child can NOT select both, do NOT add amounts of spinach and broccoli together. The student cannot take both of those food items. This also applies if more than one side dish with dark green vegetables is offered and students are instructed to take one choice. ***Accuracy in the “largest amount” box is critical- it determines the weekly subgroup offerings and if requirements are met.

Vegetable Subgroup Example 2:

Menu offers a spinach pizza (¼ cup spinach) and a broccoli soufflé (½ cup broccoli)

Child has opportunity to select pizza or soufflé

Result: Do NOT add amount of spinach and broccoli. Largest amount offered = ½ cup

-Below this section, use drop-down boxes to select both *names* of dark green vegetables and the *quantity* (in cups, ranging from 1/8 to 2).

- Once dark green vegetables have been entered, the same process must be repeated for each of the other four subgroups (Red/Orange, Beans/Peas, Starchy and Other).

-Many vegetables have been entered into subgroup lists, but these lists are *not* comprehensive.

-If an offered vegetable is unlisted, scroll to the bottom of the list and select “unspecified.”

-Next, enter the name of the vegetable in the text box at the bottom of the screen.

-Use resources such as MyPlate and Food Buying Guide (links below), as well as State Agencies, for classifications.

Vegetable Subgroup Example 3:

Menu offers yellow peppers

Yellow peppers = Other vegetable, not listed in drop down menu

Result: Under Other vegetables list, click “Other unspecified.” Within the “Unspecified Other Vegetables” box, type in “yellow peppers.”

-Once all vegetable subgroups are entered for MONDAY, select the “TUESDAY” tab.

TUESDAY- FRIDAY Tabs

-Repeat steps taken in MONDAY tab for Tuesday, Wednesday, Thursday, and Friday tabs.

Weekly Report

- This tab compiles all daily and weekly information to check if all requirements have been met.
- There are columns for Monday-Friday, Weekly Total, Weekly Requirement (cups or oz eq), and Weekly Requirement Check
- On the left side of the sheet, in rows, are the food components. The Monday-Friday columns show the amount of each component entered each day of the week.
- The Weekly Total, a light gray color, lists the amount of the component offered over the entire 5-day week. To the right is the Weekly Requirement, a beige-yellow color.
- The Weekly Requirement Check becomes green (Yes) if the requirement was met, and red (No) if not met.
- This tab also assesses the weekly requirement for fruit juice and vegetable juice (no more than half of the weekly offering in the form of juice), grain-based dessert (2 or fewer ounce equivalents/bread servings), and whole grain-rich grains (at least half of the grain offerings are whole grain-rich).
- For Grains and Meat/Meat Alternates, the daily minimum and maximum offerings each day are shown. These are added together to report total weekly minimum and maximum grains offered.

NEW for SY 2012-13 ONLY:

- FNS memorandum SP-11-2013 entitled “FNS Guidance for School Food Authorities: Flexibility in the Meat/Meat Alternate and Grain Maximums for School Year 2012-2013” provides guidance on additional flexibility in menu planning and in assessing grains and meats/meat alternates for compliance with the weekly ranges in School Year (SY) 2012-13. This is being done in order to help address significant operational challenges during implementation.
- There is *no change* in the measurement of the required minimum quantities for grains and meats/meat alternates in SY 2012-13. All menus submitted by SFAs must meet the daily and weekly minimum quantities for all food components.
- The weekly maximum limit for both the grains and meat/meat alternate components may be exceeded in the USDA Menu Worksheet for purposes of six cents certification in SY 2012-13. This means that **State agencies will consider any submitted menu compliant with the grains component requirements or the meats/meat alternates component**

requirements even if the tool displays that the menu exceeds these weekly maximums (with **RED** boxes for these components in the weekly report).

-However, to be certified as compliant with the new school lunch meal patterns, all menus submitted by SFAs for certification purposes **MUST** meet all of the remaining food component requirements. All menus must also meet all dietary specifications, including calorie minimums and maximums.

-State agencies should provide technical assistance as needed to SFAs that submit menus that utilize this SY 2012-13 flexibility and report grain and/or meat/meat alternate maximums above the weekly limit. Additionally, State agencies will carefully examine submitted nutrient analyses or simplified nutrient assessments to ensure that the weekly average calorie maximum is not exceeded.

-SFAs should contact their State agencies for additional information regarding the flexibilities contained in FNS memorandum SP 11-2013.

Nutrient Instructions/Simplified Nutrient Assessment (OPTIONAL)

-For SFAs choosing to use the Simplified Nutrient Assessment, refer to separate document entitled "Nutrient Assessment Directions."

Frequently Asked Questions

(please refer to SP 44-2012 for additional Menu Worksheet Q&As)

How often will SFAs be required to submit menus for certification?

This is a one-time process. The only time an SFA will resubmit (with revisions) is if an SFA is denied certification after initial submission.

How long is the certification?

Permanent; no expiration date. SFAs will be assessed for ongoing compliance with the meal pattern through administrative reviews.

Is there a minimum amount of days required?

A 5-day week's worth of menus must be entered. If an SFA regularly operates on a shorter or longer week, contact the State Agency for assistance.

How is the week selected for review?

The SFA has the discretion to select any week for certification.

On average, what is the estimated time this process will take per site entered?

It is highly variable, depending on how complex the menu is, but testing estimates ranged from as little as 1 hour per menu to over three hours. The majority of the time investment occurs with obtaining information on crediting and portion sizes for all items offered on the menu. The data input takes far less time.

How do I show an optional grain offering on this worksheet?

All grains must be counted toward daily and weekly requirements, therefore even optional grains must be included with the meal. However, if a menu is designed so that a child has the option to take an additional grain offering, such as a dinner roll, SFAs must enter TWO rows in the All Meals tab, and list both meals on the day this option is offered.

Example: Spaghetti w/sauce and roll (3 oz eq grains)

Spaghetti w/sauce, no roll (2 oz eq grains)
