

Scholarships for Breaking Traditions Winners

Our thanks to the following Community Colleges and the State Technical College of Missouri for their continuing support of these outstanding nontraditional students. Scholarship offers will be made as noted below to 2016 winners who enroll for fall 2016.

College and Career Consultants (CCCs) have all information. Student winners should contact their CCC and the college they are interested in attending by April 1, 2016.

If no specific amount is listed, the college will provide that information when the student contacts them. Scholarships for students who are A+ eligible will be handled on an individual basis.

Crowder College
