Outcome Summative Assessment: acceptable evidence of student achievement

Summative assessment relates to the performance outcome for goals, objectives and (GLEs) concepts. Assessment may be survey, student sharing, etc.

Summative Assessment of Student Achievement: Students will demonstrate an understanding of the rules for paying attention by following directions when completing the listed activities: A Connect the Dots Picture project; playing a brief game of Simon/Simone Says; playing Following Directions the First Time game; and making a paper bag hand puppet.

Perceptual Data Collection:
The following end-of-group perceptual data collection forms will be used as a part of sessions three and four and are attached to the Unit Plan:
Classroom Teacher Assessment:
- The classroom teacher will complete the Teacher Pre/Post-Group Perception Form (Document 14) for each student before the group starts and after the group has been completed.
- Teacher Pre/Post-Group Perception Form (Document 14) will be given to teacher to complete at the end of the group unit.

Parent Assessment:
- Parent/Guardian Post-Group Perception Form (Document 15) will be given to parents to complete at the end of the group unit.

Student Assessment:
- Student Post-Group Perception Form (Document 16) will be given to student to complete at the end of the group unit.

Results Based Data Collection:
The counselor will demonstrate the effectiveness of the unit via pre- and post-comparisons of such factors as attendance, grades, discipline reports and other information, utilizing the PRoBE Model (Partnerships in Results Based Evaluation). For more information about PRoBE, contact the Guidance and Placement section at the Department of Elementary and Secondary Education.

Follow Up Ideas & Activities
Implemented by counselor, administrators, teachers, parents, community partnerships
Provide a written summary of the skills taught to the teacher and parent(s)/guardian(s) so they can reinforce the skills in the appropriate settings.

STUDENT POST-GROUP FOLLOW-UP INTERVIEW FORM

Note: This document serves as an example of a way to follow students’ success in maintaining changes. It may also be used as a means for gathering data about students’ perceptions of the effectiveness of the group. Students who participate in follow-up sessions after a group ends are more likely to maintain the gains made. The Professional School Counselor (PSC) should make arrangements to talk with group members individually and hold at least one more group session 4-6 weeks after the group has ended. The follow-up session will enable the PSC to assess how students are doing on their goals and the successes they are experiencing as a result of the group. Follow-up sessions provide data that will demonstrate the proven effectiveness of small group counseling.

Follow-up Interviews/Session with Students

Potential Interview Questions:

How are things going?

What specific skills are you practicing now that the group is over?

What was the most useful thing you learned from the group?

What skills would you like to practice?

How are things different for you now?

  What is better?
  What is in need of improvement?

What progress have you made toward the goals you set for yourself at the end of our group meetings?

How are you keeping yourself accountable?

What suggestions do you have for future groups?

Rank your overall experience on a scale from 5 → 1:

  5 = Most positive activity in which I have participated for a long time
  4 = Gave me a lot of direction with my needs
  3 = I learned a lot about myself and am ready to make definite changes
  2 = I did not get as much as I had hoped out of the group
  1 = The group was a waste of my time

What contributed to the ranking you gave your experience in the group? What could have made it better?

TEACHER PRE/POST-GROUP PERCEPTION FORM
(SAMPLE 1 OF 2)

Note: Samples 1 & 2 of Document 14 provide you with examples of two ways to gather data about teachers’ post-group perceptions of the effectiveness of the group. Sample 1 measures teachers’ perceptions of the changes the student made as a result of the group experience. Sample 2 measures the teacher's perceptions of the counseling group as a whole. An advantage to using form 2 is that it parallels Document 15: Parent/Guardian Post-Group Feedback Form and Document 16: Student Post-Group Perception Form; thus, making it possible to compare teacher, parent and student perceptions of the group experience.

Note: The classroom teacher completes Part 1 of this document before students begin group sessions and completes Part 2 after the group has been completed. This process will provide the school counselor with follow up feedback about individual students who participated in the group.

### Professional School Counselor Procedures:

1. Students may wish to add additional guidelines suitable for their specific group.

When discussing the term, *confidentiality*, relate it to outside-the-group talk versus inside-the-group talk. The members may talk with someone outside the group about something they may have said, but they cannot talk about who the members of the group are, or what others shared. Acknowledge student suggestions as examples of how confidentiality can be maintained.

Post [*Small Group Counseling Guidelines (Document 18)*](#), including any additional guidelines the group develops, for the group to refer to during each group session. Remind students that they will be expected to follow the guidelines during each session.

2. Introduce the icebreaker activity: Review the groups that were discussed during the hook. “What were some the positive things that made you feel good when you were with that group? Or, if you didn’t enjoy the group, what would have made the experience better for you?”

   **NOTE:** This activity can be done in a number of ways:
   - Students may work in a Think-Pair-Share in which they are placed into pairs to discuss the prompts and come up with ideas together.
   - Students may work with a large piece of chart paper or bulletin board paper to come up with ideas in graffiti form which is presented for final group approval.
   - Solicit information from the entire group for consideration, which is then to be written on chart paper and edited through group approval.

3. Discuss the purpose of the group. Ask what the students would like to learn or achieve in the next few weeks in the group. Record student responses for future reference.

Closure/Summary: Review the small group counseling guidelines with the students. Give students time and date of the next session.

### Student Involvement:

- guidelines are accepted, students discuss how they will be expected to follow them.

- Students make suggestions for maintaining confidentiality.

2. Students develop a list of experiences; either individually, with another student, or with the group. Possible student comments might be:
   - We treat others as we would like to be treated.
   - Everyone gets a turn.
   - Nobody gets left out.
   - No put-downs.
   - Take turns when speaking.
   - Everyone has a chance to share.
   - Listen when others are speaking.
   - Put away equipment when you are finished.
   - Respect each other’s differences.

3. Students share ideas about what they would like to learn or achieve.

Closure/Summary: Students review the small group counseling guidelines and note the date and time of the next session.

SESSION #1 Formative Assessment

Assessment should relate to the performance outcome for goals, objectives and GLEs.  
Assessment can be question answer, performance activity, etc.  
Students will use the cue for listening to oral directions, respond to the rules of listening, and play a brief game of “Simon/Simone Says.”

SESSION #1 Preparation

Essential Questions: Why is learning to listen important? (To understand directions, safety and emergencies, expectations, etc.)  
Engagement (Hook): Introduce each student to Simon (or Simone), the puppet. Students respond to “Simon/Simone Says” prompts as follows. We are about to play “Simon/Simone Says”. When Simon/Simone says to do something, do it but be careful that Simon/Simone says it. Simon/Simone says: “Clap your hands once.” Simon/Simone says, “Clap your hands twice.” (Pause.) “Clap your hands three times.” When students clap, ask the students, what happened? Students respond that they were not listening carefully. Tell students that this lesson is about how to be a better listener.
