Guide for Special Education Exit Coding for 2008-09

General notes:

Exits from Special education due to the following two reasons must be coded in the MOSIS Student Core file:

- 1) Students returned to regular education as a result of having met the objectives of their IEP (Special Education Exit Code 01, valid for all ages)
- 2) Students whose parents withdrew them from the special education program/services (Special Education Exit Code 17, valid for all ages)

For all other exits from special education, the exit coding in the MOSIS Student Core file is optional for 2008-09, however the student's IEP disability code (at the time of exit) must be reported in the MOSIS Student Core file. For those students with an IEP disability code in the Student Core file, the final exit code in the MOSIS Student Enrollment and Attendance file will be used to populate Screen 12.
