## Training Modules

Training when and where you want it! Access free research-based online training modules to assist you in transition planning. Track your progress, reflect on the content, access libraries of information, and when you've finished, print a certificate of completion.

## Quality Indicators

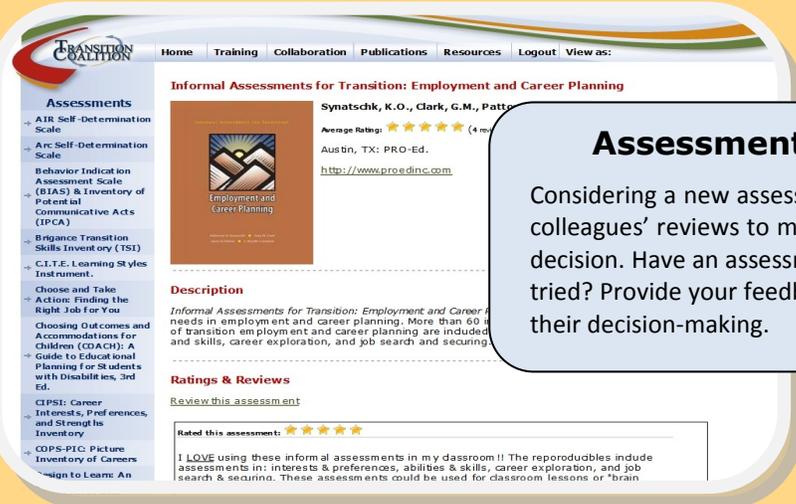

Determine and prioritize the most critical needs for transition within your organization. Designed for schools, districts and states, this tool utilizes 40 quality indicators to help assess needs.

## Transition Tips

"Been there, done that, and here are some tips!" Search these practitioners' tips that describe helpful transition practices and resources. Suggest your own tips too.

## Missouri Agency Search

Information is powerful. This searchable database provides easy-to-access information about agencies throughout Missouri that provide services to youth with disabilities. It's searchable by disability, type of service, county, or keyword; and lets users add information.

## Assessment Reviews

Considering a new assessment tool? Use your colleagues' reviews to make a more informed decision. Have an assessment tool that you've tried? Provide your feedback to help others in their decision-making.
