A Line to the Future

The Set Up:
You are a sophomore in high school, and the school counselor has spoken to your class about selecting courses for the next school year. While there are required credits for graduation, the school curriculum offers several courses from which to choose to meet these requirements. You have taken the ASFAB and discussed it with your parents and counselor.

Knowing your general talents and attributes motivates you to think about your future after high school. While you are just in the planning phase for advancing your skills and knowledge so that you become independent and are able to support yourself, now is the time to set your future goals.

The Investigation:
Use a graphic organizer or timeline to outline your potential career and life goals. Label each component and use connecting lines/arrows to illustrate the progression you foresee for yourself. Try answering these questions:

- Where do I see myself in the workforce in five years? ten years?
- What knowledge and skills will I need to achieve this goal?
- How will I acquire that level of knowledge and skill?
- What must I do now to set out on this path?

Using the graphic organizer or timeline you created, explain how the steps in the process you illustrated represent “goals.”

Now that you have listed the steps toward achieving your career goal(s), elaborate on the decisions you will face in your financial life along the way?
Work It Out:

You can find many templates for timelines and graphic organizers on the Internet.

Creating Timelines from Templates: http://www.phxelem.k12.az.us/technology_and_learning/online_learning/pdfs/creating_timelines_from_templates.pdf

Included is a sample horizontal timeline created from a template at www.teach-nology.com.

Sample Career Timeline
Health Services Career Path
Goal: RN for Surgery Unit

High School Graduation | LPN in nursing home or hospital | Level II = Associate of Applied Science Degree + Board = RN | Head Nurse Surgery Floor
---|---|---|---

December 2008 | August 2009 | August 2013
LPN = Level I program | Begin Level II = Associate of Applied Science Degree + Board = RN | BSN

After graduation from high school, I plan to use my A+ credit to enroll in a Licensed Practical Nursing program at a community college. Medication technician classes will apply to an LPN certificate and allow me to work in the nursing field while I continue my education in a Registered Nurse program. I realize that to achieve my goal as a surgery floor nurse and eventually head nurse for surgery, a Bachelor of Science in Nursing (BSN) is required.
