January 2013

Missouri First Steps Annual Report for 2011-12

Data Sources and Notes

Each SPOE region is monitored every other year. SPOEs monitored for indicators 1, 7, and 8 during 2011-2012 were 4, 5, 7, 8, 10. All other SPOEs will show "N/A" on these indicators

Indicators refer to the State Performance Plan, available online at: <http://www.dese.mo.gov/se/SPPpage.html>

Indicator 1: Timely Services

Data Source: Compliance Monitoring reports

Timely Service data come from the 2011-12 DESE Compliance Monitoring reports.

Indicator 2: Natural Environments

Data Source: First Steps database

The primary setting for services is determined by the IFSP team. These data include all infants and toddlers with an IFSP on December 1, 2011.

Indicator 3: Early Childhood Outcomes

Data Source: ECO data collection

These data are derived from the ECO entry and exit ratings that SPOEs have reported to the Department of Elementary and Secondary Education (DESE). For children who exited First Steps in 2011-12, the entry and exit ratings were linked, using IDs, in order to determine the child's "outcome" in each of the three areas. The tables provide the number and percent of children in the five outcomes, along with summary statements for the three outcome areas. Children who have been in First Steps for less than six months are not included in the data. The outcomes and summary statements were all defined by the federal Office of Special Education Programs (OSEP), and are required for the State Performance Plan (SPP) Indicator 3.

Indicator 4: Family Capacity

Data Source: First Steps Family Survey, May 2012

Surveys were sent to all families with IFSPs in May 2012. Statewide response rate for the 2012 Family Survey: 20.8%.

Indicator 4A: Averages the responses for two questions: "I received information and explanations about our family's rights to file a child complaint" and "I received information and explanations about our family's parental rights."

Indicator 4B: Averages the responses for two questions: "Since being part of First Steps, I can work with professionals" and "Since being part of First Steps, I know how to advocate for what my child needs."

Indicator 4C: Reports responses to the following question: "First Steps services give my family the tools to directly improve my child's development."

Indicators 5 and 6: Child Count

Data Source: First Steps database

Data include all infants and toddlers with an IFSP on December 1, 2011. Census data is 2010 Estimates by the Missouri Census Data Center (http://mcdc.missouri.edu/websas/estimates_by_age.shtml)

Indicator 7: 45-Day Referral Timelines

Data Source: Compliance Monitoring reports

Acceptable timelines included children whose initial IFSP meeting was held within 45 days of referral and children whose timeline exceeded 45 days due to parent/child-initiated delays. 45-day data come from the 2011-12 DESE Compliance Monitoring reports.

Indicator 8: Transition out of First Steps

Data Source: Compliance Monitoring reports (A, B, and C)

Data for Indicators 8A, 8B and 8C come from 2011-12 DESE Compliance Monitoring reports.
