Subject: Due Date Reminder - FY20 Missouri Preschool Program End of Year Reports

*This message is being sent on behalf of Lana Brooks, Early Learning Director.*

In an effort to keep funding for the Missouri Preschool Program moving forward, I want to take a minute to remind you of the following information.

- The **Final Report** and **Final Expenditure Report (FER)** are open in ePeGS and must be submitted by May 15, 2020.
  - MPP awardees will need to submit the Final Report prior to creating the FER.
  - It is important to remember that the FER must contain all expenditures made to date as well as expenditures that will be made through June 30, 2020. The only projected expenditures should be the salaries and benefits to carry the program to the end of the program year.
  
- Only FY17 MPP Awardees who have successfully completed their 4<sup>th</sup> year of funding will have access to the **2020-2021 Renewal Application** and **Budget** along with the **Itemized Budget** upload. These reports are available in ePeGS will be due May 15, 2020. It is important to note the following:
  - Public school districts who choose to access PreK funding through the foundation formula will not be eligible for MPP funding in FY21 and should not submit a Renewal Application. Contact your Early Learning Supervisor to notify them if you will be accessing PreK funding or if additional clarification is needed.
  - It is important to note that MPP funding for FY21 is subject to appropriation.

Contact your early learning [supervisor](#) if you need assistance.
