Subject: Due Date Reminder - Parents as Teachers End of Year Information

*This message is being sent on behalf of Lana Brooks, Early Learning Director.*

The extended Final Invoice and Final Payment Request due date is June 1, 2020. We are very excited to hear that over 300 Missouri schools are providing virtual PAT services. There are many success stories around the virtual delivery platform and it appears families are responding well to the services. If you are a district that has been providing virtual services, let us know by completing the Parents as Teachers National Center's [survey](#).

A new process has been put in place for submitting the Final Invoice and Final Payment Request. Programs will need to submit their 2020-2021 Compliance Plan before the option to create the Final Invoice becomes available.

Each Monday the Missouri Parents as Teachers Association (MOPATA) is hosting Zoom calls to support programs and share ideas for virtual service delivery. Be sure to connect to those calls by accessing their [webpage](#) and clicking on the Grow tab. If your district is not currently providing PAT services through a virtual service delivery I would encourage you to start thinking ahead to the start of the next program year. All school districts will be required to provide PAT services and these weekly calls can help support your staff as they plan for the next year.

I encourage programs to reach out to our staff or any of the other great organizations that are supporting the efforts of PAT. The Early Learning [staff](#) are currently working remotely which has created a new normal during this time, but programs can still contact us by phone or email. We would love to hear from you.
