**Notes:**

1. \*When the content of A1, GE, and A2 are all taught and assessed prior to HS, the LEA/Charter must submit the [Personalized Accelerated Math Plan](#) for HS MA accountability for the student.
2. Within the same LEA/Charter, if the A1 content is taught prior to grade 9, but the A1 EOC not given, the LEA/Charter must give the A1 EOC in HS (grade 9-12).
3. For any student above, the Achievement Level 4 report/chart ONLY pulls MAP data for 3-8 grades. EOC data is pulled by EOC Assessment, regardless of the student's grade when taken.
4. When an EOC is given prior to grade 9, the EOC score replaces the grade level MAP assessment. If the student scores below basic/basic, A1 may be retaken in HS for accountability purposes. For A+ purposes, see #5 below.
5. A+ Scholarship eligibility: Students are required to earn a score of proficient or advanced on the A1 EOC. When a student scores below basic or basic they may retake the A1 to gain A+ eligibility (or a higher level DESE approved EOC in mathematics. See the [higher ed website](#) for other options for A1 proficiency). The subsequent score will count for accountability (even if below basic or basic) unless the LEA/Charter requests the score be removed through the appeal process.
6. Courses do NOT have to be taught in the grade or sequence shown above, those are for illustrative purposes only.
7. Grades 9-12 are considered "High School" for EOC accountability, even in buildings with different grade span configurations.

**EOC Exception Codes:**

- EOEX2: Student received content out-of-state; in a private, parochial or home school.
- EOEX3: MAP-Alternate – Students identified by the IEP team received content without an alternate assessment available. Currently this is only applicable to Social Studies.
- EOEX4: Student took content in another public Missouri district, but was not assessed.
