Introduction and Guidelines

The Missouri Charter School Application Evaluation Rubric guides reviewers through an assessment of the key elements needed to design, manage, and operate a quality charter school consistent with Missouri law. Each section restates the application request and provides criteria for evaluating the applicant’s response to the request.

For each section, you are asked to determine whether the response meets, partially meets or does not meet the standard. In general, the following definitions should guide your assessment:

Within each section, your rating and accompanying comments for the section should apply and reference those criteria.

Your comments and evidence are at least as significant as your rating.

Required Check Boxes

MEETS THE STANDARD
The response demonstrates a thorough understanding of key issues and demonstrates capacity to open and operate a quality charter school. It addresses the topic with specific evidence that shows thorough preparation and presents a clear, realistic picture of how the school expects to operate.

PARTIALLY MEETS THE STANDARD
The response meets some of the criteria, but lacks meaningful detail or requires additional information in one or more key areas.

DOES NOT MEET THE STANDARD
The response lacks meaningful detail; demonstrates lack of preparation; and/or otherwise raises substantial concerns about the applicant’s understanding of and ability to implement an effective plan including if the respondent does not respond to the required section.

Supplemental Write-in Fields

STRENGTHS
Use the strengths box to identify notable positive aspects of the response.

CONCERNS AND ADDITIONAL QUESTIONS
Use the concerns and additional questions box to identify questions and concerns that bear on whether the application should be approved.

REFERENCE
Where applicable, use the “Reference” cell to note the relevant section and/or page number of the application.

Charter School Closure

In the event that a charter school is required to cease operation for any reason, including but not limited to: non-renewal, revocation or voluntary surrender of the charter, the charter school shall comply with the sponsor’s school closure requirements. These requirements shall include, but not be limited to the retention of the following school records: student, administration, building and grounds, business, personnel, instruction, special education, state programs, federal programs and transportation.

A response that meets the standard will:

A. If the school intends to use curricula that have already been developed, a response that meets the standard will:
   - Identify the school’s philosophical approach to educating students ensure that priorities are meaningful, manageable and measurable, and focus on improving student outcomes;
   - Be consistent with the school’s mission, education program design
   - Present a clear and coherent framework for teaching and learning—particularly in core academic areas—and will demonstrate alignment with Missouri Show-Me Standards, CLE’s, GLE’s;
   - Make a commitment to align with COMMON CORE which will be assessed in 2014-2015
   - Demonstrate understanding of relevant instructional strategies; and
   - Present a coherent framework for professional development that is likely to support effective implementation of the curriculum and how staff development will be assessed.

A. If the school intends to develop core curricula following approval, a response that meets the standard will
   - Present a viable plan for development of the curricula for core academic areas and for ensuring alignment with Missouri Show-Me Standards, CLE’s, GLE’s;
   - Make a commitment to align with common core which will be assessed in 2014-2015
   - Describe the framework for development of the curricula for core subjects; and
   - Identify sound research, experience or theoretical base and foundational materials that will guide curriculum development; and
   - Present a coherent framework for professional development that is likely to support effective development and implementation of the education program - define how staff development needs will be assessed
   - Provide professional development that is likely to support effective implementation of the curriculum and how staff development will be assessed.

Applicant Instructions

A.2 Curriculum and Instruction

Provide a description of the curriculum to be used by the school, including measurable objectives and subject area content and skills for each grade level. Show how the curriculum aligns with the Missouri Show-Me Standards, Grade Level Expectations (GLEs), and Course Level Expectations (CLEs). Discuss the specific strategies that will be relevant or necessary to successful implementation of the curriculum. Discuss how curriculum and instruction needs are reflected in plans for professional development.

Please state if the charter school intends to use curriculum that has already been developed or if the school intends to develop core curriculum. This will determine if you utilize criteria A or B for this section.

A response that meets the standard will

- Align with the school’s mission and overall educational priorities;
- Represent a clear, credible, and sound plan for measuring and reporting the educational performance and progress of individual students, cohorts, and the charter school as a whole including valid and reliable measures of student outcomes;
- Explain how the school will use assessment data to drive key decisions aimed at improving academic outcomes; and
- Demonstrate understanding of and commitment to compliance with assessment requirements applicable to all Missouri public schools consistent with state law and relevant policies of the State Board of Education including the Missouri Assessment Programs, as applicable.

Applicant Instructions

A.3 Assessment

Describe the school’s approach to assessment. Explain how the school will evaluate progress of individual students, cohorts over time, and the school as a whole toward meeting the statewide requirements. In particular, describe how the school will determine proficiency (by grade, achievement level, or grouping level) for mathematics, communication arts and one other subject area on an interim basis. For high school courses, describe the school’s plan for developing and using end of course assessments?

Detail the school’s policies and criteria for promoting students to the next grade or level for graduation from the school?

Discuss how the school use assessment information to modify the educational program and improve instruction, student learning and staff development?

- Present evidence to indicate that the enrollment projections by grade and school-wide for each year of the charter are realistic; and
- Demonstrate a clear understanding of the students the school intends to and is likely to serve;
- Present a persuasive explanation of how the proposed mission, curriculum, teaching methods and services are likely to meet the needs of the target population

Applicant Instructions

A.5 Target Population

Complete an Anticipated Enrollment Table for each year of the school’s proposed charter. This section should describe the anticipated population of the school and should explain how the proposed mission, curriculum, teaching methods and services align with the educational needs of that population.

Dropout and At-Risk Populations

Missouri sponsors are required by law to grant at least one-third of their charters to schools that actively recruit dropouts or high-risk students as their student body. A “high-risk” student is one who is at least one year behind in satisfactory completion of course work or obtaining credits for graduation, pregnant or a parent, homeless or has been homeless sometime within the preceding six months, has limited English proficiency, has been suspended from school three or more times, is eligible for free or reduced-price school lunch, or has been referred by the school district or other charter schools recommended for enrollment in an alternative program. To the extent that the applicants intend to serve a high dropout and/or at-risk population, the response should focus on this group, in particular.

Evaluation Criteria

A response that meets the standard will:

- Align with the school’s mission and educational program;
- Define goals and objectives that are specific, measurable, ambitious and attainable, relevant and time-bound;
- Align with the Sponsor’s Performance Expectations outlined in the Missouri Monitoring and Renewal Framework;
- Set high standards for student learning; and
- Present clear criteria for promotion from one level to the next, and for graduation,
- Include a timeline for students to meet performance standards that shall not be construed as permitting a charter school to be held to lower performance standards than any other public schools within a district.

Applicant Instructions

A.7 School-Specific Goals and Objectives

Like all public schools, charter schools are subject to state and federal accountability requirements. For all approved schools, the charter contract will include a set of core educational performance expectations that reflect state accountability requirements and the Sponsor’s Performance Expectations outlined in the Missouri Monitoring and Renewal Framework. In addition to those standard requirements, most schools have goals that are particular to the school’s educational philosophy and organizational priorities. Identify two key academic goals and one non-academic goal for which the school plans to hold itself accountable. Explain how those align with the school’s mission, the proposed educational program, the statewide accountability system. Well-developed school-specific goals will be:

- Specific
- Measurable (based on identified indicators and expected performance levels and a reliable measurement instrument)
- Ambitious and attainable
- Relevant (to your mission)
- Time-bound

Following are examples of performance goals.

Example 1: Student Gains

At all grade levels, students at the Charter School will average 1.1 years of academic growth as measured by multiple administrations of a nationally norm-referenced growth-measured exam.

Example 2: Performance Status

(Percentage) of students who will achieve Proficient or Advanced status on the state’s annual MAP Test assessment.

Example 3: Student Re-enrollment (Non-academic)

The Charter School will retain (percentage) of its enrolled students year-to-year during its first three years of operation.

- Include evidence that the school will ensure a safe environment conducive to learning
- Comply with all laws and regulations relating to student discipline under 160.261 and notification of criminal conduct under 168.071

Applicant Instructions

A.8 School Climate and Discipline

Describe the strategies the school will employ to develop and sustain a safe and orderly climate that supports fulfillment of the educational goals. Explain the school’s student behavior philosophy and discipline policy or code of conduct for both the general student population and for students with special needs. The full discipline policy should be included as an attachment if already developed.

Explain how the school will encourage family involvement and communication to support student learning, and how it will gauge satisfaction with school climate.

Applicant Instructions

A.9.1 Career Education

Applicants who intend to operate career education programs must complete the Application for Approval of Career Education Programs. Schools seeking funding under the Carl D. Perkins Career and Technical Education Act of 2006 must have the previously mentioned items plus, the applicant should:

- Provide the rationale for the program. Include results of community-based assessments, student interest survey data, advisory committee recommendations, and needs identified by business and industry/employment outlook. Note: The student interest survey data must be derived from Missouri Connections or a similar student interest assessment.
- List the program goals and objectives in measurable terms.
- Provide a topical outline of major units of instruction in the proposed program.
- Identify program instructional contact hours, course sequence, and grade levels (if applicable).
- Identify major methods of instructional delivery (laboratory, classroom, project-based, problem-based, etc.)
- Identify the Career and Technical Student Organization and describe how it will be used to support curriculum, instruction, and assessment.
- Identify postsecondary partners and/or business/apprenticeship partners. Provide a brief summary of possible postsecondary articulation agreements/dual credit agreements and/or partnership agreements that will be put in place once program/course is operational.
- Identify and describe opportunities for assisting students in transitions to the workplace or continued education through such activities as experiential education, cooperative education, internships, apprenticeships, job shadowing, and job placement.
- Identify the assessment plan to measure student progress including competency achievement. Identify the plan for evaluating the effectiveness of the program, including evaluation instrument(s) used, methods of evaluation, and how results will be used for program improvement. For secondary level programs, identify the process for including program improvements in the charter school’s improvement plan.

A.9.2 Virtual Education

162.1250 (3) allows LEA’s to receive state school funding for resident students who are enrolled in the LEA and who are taking a virtual course offered by the school district. For funding, the virtual classes must:

- Have a contact teacher with a valid Missouri teaching certificate assigned to interact with students of virtual courses,
- Utilize appropriate content-specific tools and software,
- Make orientation training available for teachers, instructors, and students as needed,
- State and make privacy policies available to teachers, instructors, and students,
- State academic integrity and Internet etiquette expectations regarding lesson activities, discussions, electronic communications, and plagiarism to teachers, instructors, and students prior to the beginning of the virtual course or virtual program,
- Specify computer system requirements, including hardware, web browser, and software to participants,
- Permit the online teacher or instructor to add content, activities, and assessments to extend learning opportunities,
- Make resources available by alternative means, including but not limited to, video and podcasts,
- Make resources and notes available for teachers and instructors in addition to assessment and assignment answers and explanations,
- Make technical support and course management available to the virtual course or virtual program teacher and school coordinator,
- Include assignments, projects, and assessments that are aligned with students’ different visual, auditory, and hands-on learning styles,
- Demonstrate the ability to effectively use and incorporate subject and developmentally appropriate software in on-line learning module,
- The virtual course or virtual program arranges media and content to help transfer knowledge most effectively in the online environment.

Evaluation Criteria

A response that meets the standard will

- Present performance measures that are a valid and reliable means for determining whether students are meeting performance standards;
- Ensure that the school will be held to the same performance standards as other schools; and
- Specify the time frame in which students will be expected to meet the performance standards
- Show compliance with all federal accountable standards.

Applicant Instructions

A.9.3 High – Risk Alternative Schools

Missouri’s charter school law places a priority on meeting the needs of high-risk and alternative populations. Such schools will be held to the same performance standards as other schools, but students in those schools may meet performance standards on a different time frame. Applicants proposing to operate an alternative charter school or one serving high-risk students and their sponsors will propose comprehensive school-specific academic and behavioral measures that are mutually agreeable.

Describe the comprehensive academic and behavioral measures that the school proposes to use. Explain how those measures align with the school’s mission, the proposed educational program, and the statewide accountability system.

If approved, the comprehensive measures will be used in addition to standardized public school measures to evaluate school performance.

Evaluation Criteria

A response that meets the standard will

• Written procedures contain to systematically identify and serve gifted/talented students in all grades consistent with state administrative rules and regulations
• Gifted education services are designed to provide identified students with instructional objectives and strategies that are appropriate to their identified needs and are provided on a continuing basis as these students progress through the grades
• A written curriculum for the gifted education program that is intellectually and affectively engaging, and is taught in a meaningful context.

Applicant Instructions

A.9.4 Gifted Education

By law and tradition, LEAs are expected to provide programs of instruction suitable for the full range of student ability, from handicapped and disadvantaged learners through those who are academically advanced.

The state special education law (H.B. 474) enacted in 1973, authorized the State Board of Education to establish standards for special programs for gifted students. The following sections of state law pertain to gifted education programs:

• Section 162.675. RSMo, defines gifted children as “those children who exhibit precocious development of mental capacity and learning potential as determined by competent professional evaluation to the extent that continued educational growth and stimulation could best be served by an academic environment beyond that offered through a standard grade level curriculum.”
• Section 162.720. RSMo, states that LEAs may establish programs for gifted children “where a sufficient number of children are determined to be gifted and their development requires programs or services beyond the level of those ordinarily provided in regular public school programs...” and states that the State Board of Education “shall determine standards for such programs. Approval of such programs shall be made by the State Department of Education based upon project applications submitted each year.”

LEAs must develop a system to identify children in need of the gifted education services that the district provides. Screening criteria should be as inclusive as possible. Identification criteria and test instruments should be chosen that will maximize the students’ strength and limit the effects of any possible biases Limited English Proficiency (LEP), culturally diverse background, poverty, etc. Districts should consider their demographics when creating a menu of comparable test instruments that will be acceptable for screening and placement.

a. Screening

All available data on the total school population should be considered during the screening stage. Any information contained in permanent records should be used, including nationally-normed achievement Arts, test scores, group intelligence test scores, Missouri Assessment Program (MAP) scores, and pervious grades, anecdotal records demonstrating creative problem-solving and general creativity, and recommendations from teachers, parents, peers, and other personnel. Districts should also consider what methods will be effective in selecting hard- to-identify and traditionally underrepresented students. Districts should establish their own criteria so as to allow for approximately 10 to 20% of the population to be considered for further evaluation.

b. Individual Evaluation and Placement

Following screening and referral, the school may determine criteria which would be appropriate for the academic or fine arts service(s) provided, the grade levels to be served, and the background and needs of students in the district. It is expected that the use of tests and scales may differ within as well as between district. For example, different procedures or instruments may be used with students of different ages or for parts of the program with specific curriculum focus, such as a Fine Arts, Math or Science focus. Alternate selection criteria and methods may also be used for special populations or students with special needs (ie. LEP, LD).
For Evaluator’s Reference (continued)

1. General Mental Ability
Full-scale or GAI scores on an individual intelligence test at or above the 95th percentile: Although they are more time-consuming, individually administered intelligence tests provide more accurate indicators for final placement purposes than do group tests. The district may use various IQ tests, administered according to their appropriateness in reference to program areas and student needs. On the Core Data screen 25 lists the minimum required test score needed for placement.

2. Academic Ability
If achievement test scores are used for formal evaluation and placement, they must be derived from a norm-referenced test and the cut-off score must be set at the 95th percentile or higher. MAP content area test scores may be used for placement in subject specific classes. For interdisciplinary programs, tests must be used that sample a majority of the core subject areas of Math, Science, Social Studies, and Communication.

On the Core Data screen, 25 list the minimum required test score. While composite scores will be used for most multi-disciplinary academic programs, it may be appropriate to use subtest scores if an academic program is focused on a specific subject area. The scores must be in the subject area(s) or in the subtest area(s) most related to the design of the gifted program.

3. Creativity, Reasoning, and Problem-solving Ability
Results of valid tests or other assessments indicating outstanding ability in one of the following areas; (1) creative and productive thinking, (2) advanced insight, (3) outstanding imagination, (4) innovative or creative reasoning ability, (5) advanced perception of cause and effect relationships, (6) problem solving, or (7) abstract concepts. These areas of ability must be related to the design of the gifted program. A minimum criteria for identification must be established by the district and listed on the Core Data Screen 25.

4. Other
Documented evidence of exceptional performance in a general academic area, a fine arts area, or another area related to the design of the gifted program: Such evidence may take the form of portfolios of student work, formal classroom observations by persons knowledgeable about characteristics of gifted students, auditions, product demonstrations, etc. Districts must establish minimum criteria for placement and list it on the Core Data screen 25. Other adaptations may also be appropriate. The examples listed above do not include all possibilities. We strongly encourage districts to consult with DESE personnel regarding appropriate alternative identification procedures.

Evaluation Criteria

The response should present a clear picture of the contractual relationship and accountability between the ESP and the school’s governing board that is consistent with the school’s mission and educational program.

A response that meets the standard will

- Provide persuasive explanation of the reasons for contracting with an education service provider, in general, and this provider, in particular;
- Provide sense of how the proposed relationship with the ESP will further the school’s mission and program;
- Provide evidence of ESP’s success in serving students population similar to target population
- Provide clear description of the services to be provided by the ESP;
- Provide coherent delineation of the roles and responsibilities between the school’s governing board, management and the ESP; and
- ESP performance expectations that are consistent with the school’s accountability requirements and the means by which the board will hold the ESP accountable for meeting those expectations.
- Disclose and explain any termination or nonrenewal of contracts for equivalent services for any other charter schools in the U.S. within the past 5 years.

Applicant Instructions

B.7.1 Education Service Providers (if applicable)

If the school expects to contract for services with an education service provider, discuss the school’s decision to work with an ESP, in general, and the selected ESP, in particular. Describe the planned relationship between the school and the ESP and how that relationship will further the school’s mission and program. Provide a clear description of the services to be provided by the ESP. Describe the ESP’s roles and responsibilities in relation to the school’s management and governing board. Describe the school’s performance expectations for the ESP. In other words, how will the school evaluate ESP performance?

Required Exhibits

- Background information on the ESP including relevant performance data for other schools that the ESP has managed
- A list of any other schools managed by the ESP in the state of Missouri with contact information
- The services agreement as executed between the school and the ESP (or template version if not yet executed)

STATUTORY REFERENCE(S): 160.405.1(5)

All applicants are asked to declare whether they intend to contract with an education service provider (ESP). The term “education service provider” refers to any number of organizations that contract with the governing board of a school to provide comprehensive services. The major types of ESPs that serve charter schools are education management organizations (EMOs), charter management organizations (CMOs), and comprehensive school design providers.

After making the initial declaration, applicants should complete the remainder of the section only if the school expects to contract with an ESP.

- Present persuasive evidence that the plan for the affiliation is sound and that the purpose(s) is/are likely to support achievement of the school’s mission.

Applicant Instructions

B.7.1 Joint Application (if applicable)

The following section should be completed if, pursuant to section 160.400.8, Rev. Stat. Mo., the school proposes to be affiliated with a college, university, museum, educational institution, other not-for-profit organization, or other partner that is not an educational service provider. Applicants that do not plan to have such an affiliation should proceed directly to Part C, Business Plan.

If you are proposing to affiliate with a college, university, museum, educational institution, other not-for-profit entity, or any other partner, describe the rationale for the affiliation, the benefit that the school expects to receive from the partnership, and provide the following information for each affiliated organization:

- Name of the organization;
- A letter of intent or commitment from a bona fide representative of the partner organization indicating that the organization is undertaking the affiliation and the terms and extent of the understanding;
- The name of a contact person for the partner organization; and
- Contact information (address, phone number, facsimile number, and e-mail address) for the contact person at the affiliated organization;

- Present budget priorities that are consistent with and support key parts of the plan, including the school’s mission, educational program, staffing and facility;
- Present realistic, evidence-based revenue and expenditure assumptions, including for any plan to incur and repay debt;
- Present viable strategies for meeting potential budget and cash flow challenges, particularly for the first year of operation;
- Demonstrate a commitment to maintaining the financial viability of the school;
- Budget must reflect the projected percentage of reserve funds at the end of each fiscal year for the LEA.

Applicant Instructions

C. Business Plan

The business plan should provide an understanding of how the applicants intend to develop and manage the school’s infrastructure and finances. It should present a clear picture of the school’s revenue projections; expenditure requirements; facilities needs; transportation and food service plans; and pre-opening plan.

C.1 Budget

Use the Charter School Budget Template (Appendix B) to detail the school’s estimated revenues and expenditures for the proposed term of the charter including the preoperational startup year.

Provide a cash flow analysis for the first fiscal year of operation (July 1- June 30).

Include explanation and discussion of key budget assumptions underlying the budget projections and explain how the budget aligns with and supports implementation of the educational program. If the school anticipates incurring debt for any reason, such as for acquisition of its facility, the budget must address the schedule for debt repayment and the budget discussion should elaborate on the repayment assumptions and plan.

Discuss the school’s contingency plans for cash flow challenges, a budget shortfall, lower than expected student enrollment or other financial challenges in the early years of operation.
