WebSPOE Updates

Release Date: July 28, 2020

System Enhancements		
Add Remote Service Indicator to Claim Line	**Impacted Users: SPOE, Providers**	**MWS-10110**

- The Provider Claim Line for Service and Eval/Assess claims will have a new required field to indicate where the service was performed.
  - The field will display a question, "Was this service delivered remotely either by phone call or video conference due to COVID-19?" The user will be required to select a No or Yes radio button.
