## What will I see when I log in as a Regional Director?

**You will see your home page, which is the Region tab/page.** This tab/page displays the following:

- Regional Director <link> - by clicking on this link, you are able to your access to your calendar and pathway to add an event or to edit an existing event that you are assigned to.
- All My Region Events <link> - by clicking on this link, the system will display all open and closed Event IDs for your region. This will allow you to access and review, in read only, any events posted.
- All staff members assigned to your region <links> - by clicking the staff member name, you may access their calendar in read only view. You may access their existing event by clicking on the Event ID number. This will open the event data page in read only view. You may also click the Events Needing Log Data button. All the open logs / events will be displayed for the selected staff member. You may click the Events Assigned to Me button. This will display all open logs/events for the staff member selected. Each report has the Event ID as a link. This will navigate to the Event Data page in read only view.

**You will also see the Other Regions tab.** This tab / page displays drop down options for all regions. Select a region and click the Load Consultant for Region button. The page will refresh and display all staff members associated to the Region you selected. By clicking the staff member name, you may access their calendar in read only view. You may access their existing events by clicking on the Event ID number. This will open the event data page in read only view.

**The third, and last tab you will see is the Submit Monthly Logs tab.** This is your access to process the monthly consultant logs for a specific month/year. The system will only display the month/year that has open consultant logs for your region. If you have already submitted a month, you will not see it as an option unless a previously submitted log has been unlocked or additional logs were added after submission for the selected month/year. We will discuss, in greater detail, the Submit Monthly Log functionality later in this manual.

Events Needing Log Data

Events Assigned To Me

- Click Add Event to create a new event.
- Click an existing Event Number to open the event.

### Calendar Navigation

You may navigate back one year by clicking the Previous Year button; you may move back one prior month by clicking the Previous Month button; you may navigate to the current month by clicking the Current Month button; you may navigate to the next month by clicking the Next Month button; and you may navigate forward one year by clicking the Next Year button.

### Events Needing Log Data Page <Report>

You may click the Events Needing Log Data button. This will display all open logs that have the Event Data section of the Event Data page empty. You may print this report by clicking on the Print button. If you have open logs that are missing the Event Data Log(s), then the system will generate a "report" which displays event ID's that still require log data.

You may click on the Event ID link. If it is an event that you are a RPDC staff member, you will see your event in edit view. If you are looking at someone else's report, you will see the Event Data page in read only view.

To return to your calendar simply click the RPDC Home link on the left navigation.

### Events Needing Log Data

Thursday, October 03, 2013  
Region 1 - Rose RPDC Con

Event Id	Event Title	Event Type	Event Location	Event Staff
<a href="#">1-213-2</a>	Test-creator not IDd as staff-assigned RC as staff & save			1:Rose RPDC Con
<a href="#">1-913-35</a>	Assign to RC			1:Rose RPDC Con
<a href="#">1-913-36</a>	test	Technical Assistance	Other Location	1:Rose RPDC Con
<a href="#">1-913-37</a>	test			1:Rose RPDC Con

Print

• Click an Event Number to open the event.

If you are not missing log data on any open events, then the system will generate the following:

### Events Needing Log Data

Thursday, October 03, 2013  
Region 1 - Rose RPDC Dir

Event Id	Event Title	Event Type	Event Location	Event Staff
No report data found.				

• Click an Event Number to open the event.

### Events Assigned to Me Page <Report>

You may click the Events Assigned to Me button. This will display all open logs for events that you have been assigned to. You may print this report by clicking on the Print button. If you click on the Event ID link, the system will display that event.

You may click on the Event ID link. If it is an event that you are a RPDC staff member, you will see your event in edit view. If you are looking at someone else's report, you will see the Event Data page in read only view.

To return to your calendar simply click the RPDC Home link on the left navigation.

### Events Assigned To Me

Tuesday, May 20, 2014  
Region 1 - Rose RPDC RD

Begin Date	Event Id	Event Title	Event Type	Event Location	Event Staff

Print

- Click an Event Number to open the event.

If there no open logs for you then the system will generate the following:

### Events Assigned To Me

Thursday, October 03, 2013  
Region 6 - David Oesterly

Event Id	Event Title	Event Type	Event Location	Event Staff
No report data found.				

- Click an Event Number to open the event.

### Other things you may do from your Calendar view

**You may select the Paid Leave checkbox.** This is a visual indicator to other staff members that you have designated this day as a “Paid Leave” day. You still have the option to de-select it, and other staff members may still select you for an event for that day.

If you have been selected to attend an event for the day you have marked as paid leave, you have the following options:

1. You may choose to leave the Paid Leave box check marked and attend the event; you would record your Event Log Data on your Event Data page with the Type of Day equal to WORK DAY; OR
2. You may choose to de-select the paid leave checkmark and attend the event; OR
3. If you choose to not attend. To do this, simply go into your event data page, enter a Event Log Data DATE equal to the date of the event, and select the Type of Day as DID NOT ATTEND. Click the Add Log Data button. This will display this record under the log data records view. Make sure you click the Save button! If you do not click the Save button, your data will not be saved!!! By selecting the Type of Day equal to DID NOT ATTEND, you have disassociated yourself from this event. When this log is submitted to DESE, it will not trigger any low or high edits.

**You may Add an Event.** Click the Add Event link on the day you would like to create the event. The system will open the Event Data page with all fields open for adding data. We will discuss, in detail, the Event Data page later in this manual.

**You may Access your own Existing Event.** Click the Event ID number listed on the calendar that you would like to open. This will display your view of the event data page in edit view. We will discuss, in detail, the Event Data page for editing later in this manual.

## How do I Create / Add an Event?

To add a new event, go to your personal calendar and click the Add Event link for the calendar month, day and year. This will display your Event Data page with all fields ready for data entry.

**Event Participant Counts**

Participant Counts Do Not Apply

District/Agency:  ACADAMIE LAFAYETTE    Buildings:  ACADEMIE LAFAYETTE    Participant Count:  
 Teachers     Admin     Other

District/Agency	Building	Teachers	Admin	Other
No event participant counts found.				

**Event Log Data**

Date:     Type Day:  Work Day    Initiative Type:  CW    CW Detail:  Select...    Mode Of Contact:  Email  
 Planning, Communication, & Collaboration:     Training:     State Meetings Conferences:     Travel:   
 Notes:    

Date	Type Of Day	Initiative Type	CW Detail	Plan, Comm, Cord	Training	State Mtgs/Conference	Travel	Mode Of Contact	Notes
No event log data found.									

- Click Add Participant Count button to add counts to Participant Count list.
- Click Add Log Data button to add counts to Log Data list.
- Click the Save button after you have entered event information and added Participant Count and Log Data information.

If you are simply setting up an event and are NOT planning to a participant BUT you don't know who the RPDC staff will be, or which District/Building will be affected, simply do the following:

1. Enter your Event Title (this is required)
2. Enter your Begin Date (this is required and defaults to the calendar day you selected)
3. Select yourself as the RPDC Staff (there must be at least ONE RPDC staff member identified)
4. Enter the same date equal to your Begin Date into the Event Log Data section. Select the Type of Day equal to DID NOT ATTEND.
5. Click the Add Log Data button. The page will refresh and display this log in the records view portion of the Event Log Data segment.
6. **Click the SAVE button!!!!** Make sure you view the message at the top of the page which will read Event Data has been saved. If you don't use the SAVE button, you will LOSE ALL YOUR DATA!!!

Now your calendar will display this event ID on the day equal to the begin date selected. If there is no log data associated, the Event ID will display in a red font color. You may go into this event at a later time and select the RPDC staff. You may also enter the Event Participant Count segment fields if you wish. If you add an Event Participant Count data, click the Add Participant Count button. This will display this newly added record in the display section of this segment. **Remember to click the SAVE button!!!!** All identified RPDC staff members will now have this event ID displayed on their calendars. The identified staff members can open their own event data page and then begin entering log data.

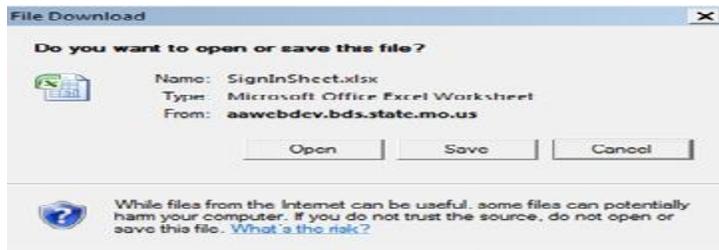

If you are setting up the event and are NOT going to a participant but KNOW who the staff will be, simply create the event and do the following:

1. Enter the Event Title
2. Enter Event Begin Date
3. Selected the identified RPDC staff member(s)
4. Click the SAVE button!!!! The event ID will be displayed on all identified staff member's calendars. The event ID will NOT display on your personal calendar.

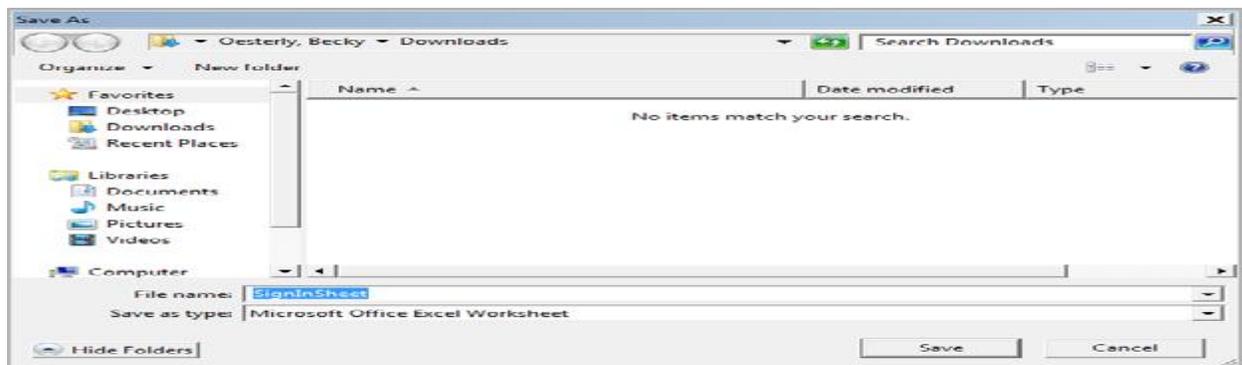

## How do I Create a Sign-In Sheet?

**First select an existing event data page from your calendar view.** If you select the Add Event option, you will not see the Create Sign In Sheet button.

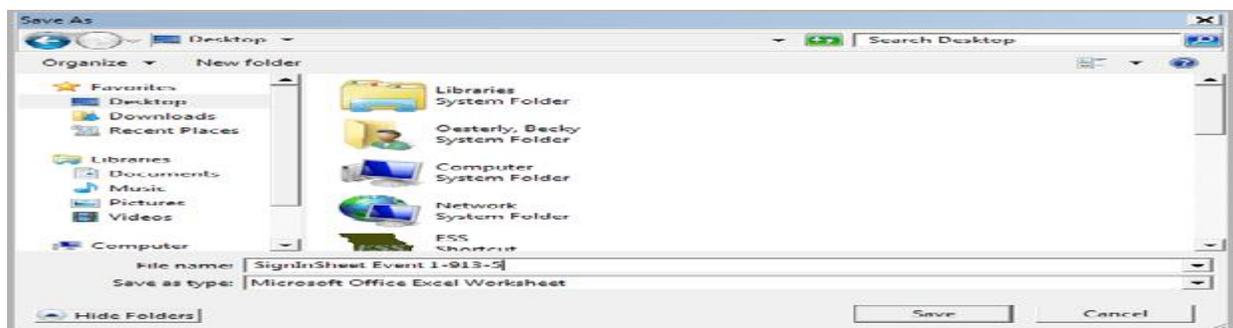

**Next step is to click the Create Sign In Sheet button.** This will open a separate “pop up” page, File Download, which will allow you to start the exporting process to your computer. This pop up page will ask, “Do you want to open or save this file?” Click the SAVE button.

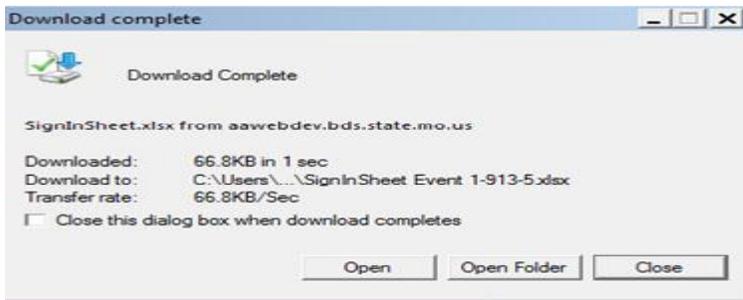

This will then generate a “pop up” page that is a “Save As” page. The default file name listed is: SignInSheet. You may choose to rename the file if you wish. Suggested practice is to name it SignInSheet + event number (SignInSheet 1-913-1 for example).

**Next, select your target drive to save your exported excel file.** Once you have identified your target drive, click the SAVE button on the “Save As” pop up page.

Your excel Sign In Sheet is now saved to your target destination; the “Save As” pop up page closes. You’ll next see a pop up message “Download Complete”. Click the CLOSE button. The Download Complete pop up message closes and you will remain on the Event Data page.

**You're now ready to go your excel Sign In Sheet and begin the sign in process at your site location.**  
The excel format will display the following:

- **Event ID** (not the actual event number like 1-913-1, this is an internal ID and it maps this excel spreadsheet back to the appropriate event when you go to import it!);
- **Event Number** ( this is the actual event number you see on the event data page 1-913-1)
- **Begin Date** (this is the Begin Date that is saved on the Event Data page)
- **Event Title** (this is the Event Title that is saved on the Event Data page)
- **First Name** (this is an open field)
- **Last Name** (this is an open field)
- **District/Agency** (this has a drop down button and options)
- **Building** (this has a drop down button and options mapped to the District/Agency selected)
- **Type** (this is the participant type – Admin, Teacher, Other)

100	Event ID	1-913-5	Begin Date	9/6/2013	
Test high edit submitted and then corrected					
	First Name	Last Name	District/Agency	Building	Type
	Becky	Tester	ACADAMIE LAFAYETTE ACADEMIE LAFAYETTE ACADEMY FOR INTEGRATED ARTS ACADEMY OF KANSAS CITY ADAIR CO. R-I ADAIR CO. R-II ADRIAN R-III ADVANCE R-IV		

100	Event ID	1-913-5	Begin Date	9/6/2013	
Test high edit submitted and then corrected					
	First Name	Last Name	District/Agency	Building	Type
	Becky	Tester	APPLETON CITY R-II	APPLETON CITY ELEM. APPLETON CITY HIGH APPLETON CITY MIDDLE	

100	Event ID	1-913-5	Begin Date	9/6/2013	
Test high edit submitted and then corrected					
	First Name	Last Name	District/Agency	Building	Type
	Becky	Tester	APPLETON CITY R-II	APPLETON CITY HIGH	<div style="border: 1px solid black; padding: 2px;">             Admin              Teacher              Other           </div>

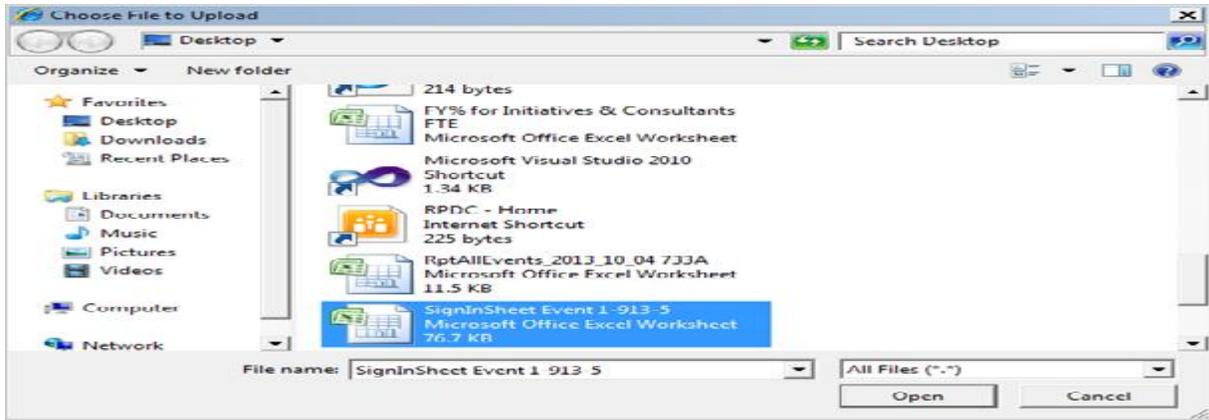

Once you have completed entry work, simply save your excel spreadsheet. You're now ready to start the import process!

## How do I Import a Sign-in Sheet?

First open the Event Data page that you used to create the Sign In Sheet. Next click the Import Sign In Sheet button. The page will refresh and you'll see some additional components – “Enter the location of the Sign In Sheet to submit: <browse data field>; the Browse button; and the Upload button.

You'll also see a “pop up” page – “Choose File to Upload”. This allows you to begin the selection process. Browse to the target drive where you saved your excel Sign In Sheet and select the file. The “Choose File to Upload” page now displays the target Sign In Sheet in the File Name data field of this page. Click the Open button. The “Choose File to Upload” pop up page closes, and you now see the File Path and the File Name in the Browse <data field> on the Event Data page.

The screenshot displays a web application interface for professional development. A 'Choose File to Upload' dialog box is open, showing a file explorer view of the desktop. The file 'ESS Shortcut 1.04 KB' is selected. The background page, titled 'Professional Development Center', shows the 'Event Participant Counts' section. It includes dropdown menus for 'District/Agency' (ACADEMIE LAFAYETTE) and 'Buildings' (ACADEMIE LAFAYETTE). There are checkboxes for 'Participant Counts Do Not Apply', 'Teachers', 'Admin', and 'Other'. Buttons for 'Create Sign In Sheet', 'Import Sign In Sheet', and 'Add Participant Count' are visible. A 'Browse' button is used to select the location of the sign-in sheet to submit. The page also shows a date of 10/9/2013 and the user is working with Region 1 - Rose RPDC Dir.

**Event Participant Counts**

Participant Counts Do Not Apply

**District/Agency**  **Buildings**  **Participant Count** Teachers  Admin  Other

Enter the location of the Sign In Sheet to submit:

District/Agency	Building	Teachers	Admin	Other
No event participant counts found.				

Next click the **Upload** button. The system refreshes the page and displays the District/Agency, Building and Participant Count record(s) in the existing Participant Event Counts viewing window.

**NOTE: In order to save these uploaded Event Participant Count records you MUST click the SAVE button on the Event Data page. If you don't click the Save button, you will lose this data and will have to re-import it!!!!**

**Event Participant Counts**

Participant Counts Do Not Apply

**District/Agency**  **Buildings**  **Participant Count** Teachers  Admin  Other

	District/Agency	Building	Teachers	Admin	Other
<a href="#">Edit</a> <a href="#">Delete</a>	APPLETON CITY R-II	APPLETON CITY HIGH	1	2	0
<a href="#">Edit</a> <a href="#">Delete</a>	BLACKWATER R-II	BLACKWATER ELEM.	1	0	1
<a href="#">Edit</a> <a href="#">Delete</a>	CAMPBELL R-II	CAMPBELL ELEM.	1	0	0

**Helpful Hints:** If you have multiple, SAME-KIND, District/Agency and Building combinations on your excel spreadsheet, the system will roll these multiple records into one record in the existing event participant count viewing window, and will add up all participant counts for the Teachers, Admin, and Other.

If you have already existing event participant count records, PRIOR to creating the sign in sheet, and you enter a District/Building combination on your excel sign in sheet that already is in existence on your Event Data page, the system will disregard this record. You MUST use the Edit button on the displayed record to update the counts.

If you have already existing event participant count records, PRIOR to creating the sign in sheet, and your sign in sheet has records that do NOT match the existing District/Building combination, the system allows you to upload these records. **Remember to click the SAVE button after doing so.**

If you have an Event Data page open and attempt to import a Sign In Sheet that was created through another Event Data page, the system will display an error message you attempt to save it. The system checks to see if the Event ID (not the event number) on the Event Data page matches the Event ID listed on the excel Sign In Sheet.

## How do I Edit My Own Existing Event?

Go to your personal calendar and click on the Event ID link that you would like to edit. The system displays the Event Data page in edit view. If there are NO Event Log Data records associated to this event for yourself OR other assigned RPDC staff members, then a Delete button will be displayed. This is the only condition that will allow a user to delete an event from the system. The Delete button will perform a soft delete and remove this event from all assigned RPDC staff calendars. If the system detects any logs associated with an event (for yourself or other staff), the Delete button will NOT display.

The Event Information section and the Event Participant Count sections will display the same data on all assigned RPDC staff for this event. The Event Log Data section is completely yours. This data is NOT reflected on any other assigned RPDC staff member's event data view.

- Click the Save button after you have entered event information and added Participant Count and Log Data information.

Screenshot with no event logs associated to this Event ID by this user or any other assigned RPDC staff member. Delete button is now displayed and functional under these conditions.

**You may delete an event in its entirety if the following conditions are true:**

- You do NOT have log data saved to this Event ID record and/or
- No other assigned RPDC staff have log data saved to this Event ID record

If the above condition(s) is true, then you will see the delete button at the bottom on the page. Click the Delete button, the system will ask if you're sure about deleting. Click Yes, if you're sure.

The system has deleted this event from your calendar and also from any other assigned RPDC staff members.

If your Event Data page has event data logs associated, you will not see the delete button. However, you may still delete an Event Participant Count record or an Event Data Log record.

## 1-514-12 Event Data

Event Entered By: ROSERPDCRD Today Is: 5/21/2014  
Working With: Region 1 - Rose RPDC RD

### Event Information

\* Event Title: test SA creates event; assigns - no logs

\* Begin Date: 5/14/2014    End Date:    Event Type: Technical Assistance

Purpose: Initial Contact    Location: District/Building    \* RPDC Staff:

- 1:Test To Add Staff by DESEsa
- 1:Tom Anderson
- 1:Julie Antill

You may edit the fields in the Event Information section of the page. Please keep in mind, that any changes made in this section, will affect any other identified staff member's view of the event data page.

### Event Participant Counts

Participant Counts Do Not Apply

District/Agency: ACADAMIE LAFAYETTE    Buildings: ACADEMIE LAFAYETTE    Participant Count: Teachers [ ] Admin [ ] Other [ ]

Create Sign In Sheet    Import Sign In Sheet    Add Participant Count

		District/Agency	Building	Teachers	Admin	Other
<a href="#">Edit</a>	<a href="#">Delete</a>	AVILA UNIVERSITY	AVILA COLLEGE, KANSAS CITY	5	50	10

You may edit an existing Event Participant Count record for the actual Participant Count types (Teachers, Admin, and Other). Remember to click the Edit button to open these fields for editing. Remember to click the Update button to add these edits for the record selected. Please keep in mind, that any changes made in this section, will affect any other identified staff member's view of the event data page.

You may delete an existing Event Participant Count record. Click the Delete button located next to the event participant count record.

You may add a new Event Participant Count record. Remember to click the Add Participant Count button to display the new record in the viewing window of this section.

**Remember to click the SAVE button after making changes!!!!**

Event Log Data											
Date		Type Day	Work Day	Initiative Type	CW	CW Detail	Select...	Mode Of Contact	Email		
		Planning, Communication, & Collaboration		Training		State Meetings Conferences		Travel			
Notes											Add Log Data
		Date	Type Of Day	Initiative Type	CW Detail	Plan. Comm. Cord	Training	State Mtgs/Conference	Travel	Mode Of Contact	Notes

<a href="#">Edit</a>	<a href="#">Delete</a>	5/20/2014	Work Day	PBIS		0.00	0.00	1.00	0.00	Email	

**You may edit the fields in an existing Event Log Data record (IF the targeted log has not been submitted to DESE).** Click the edit button next to the record. The system will allow you to change the Hour Type and the actual time. Click the Update button to display the edits.

**You may delete an existing Event Log Data record.** Click the Delete button next to the record.

**You may add a new Event Log Data.** Enter all data and click the Add Log Data button. Remember, if you have an existing log data record that has a matching date, Initiative Type value and CW Detail value (if selected), the system will not allow you to add this log. You'll need to edit the existing log record with the updated Type of Hour category and hours.

**Remember to click the SAVE button after making changes!!!!**

## It's Time to Submit Monthly Logs

**First click the Submit Monthly Logs tab.** The system will display the Submit Monthly Logs page. The system is designed to show drop down values for any month/year that has been detected with open consultant logs for your region. If there are NO open consultant logs for a specific month/year, then you will not see it as an option (this can be from literally no open consultant logs for that time period OR you have already submitted that particular month/year).

Submit Monthly Logs

"Missouri public schools: the best choice...the best results!"

**Select the month/year option that you would like to begin the submittal process for.** Highlight the time period you want and click the Show Monthly Logs button. Page will refresh and display all open consultant logs for the time period selected. It will also display the Event ID, Title, Type, Location and Event Staff equal to the open logs detected.

You may use the Event ID number link to access the Event Data page for reviewing purposes. The page displays in read only view. When you navigate back to the Submit Monthly Logs page, remember to check the Show Monthly Logs for <DATE> to ensure you still have the correct month/year selected.

**If you're ready to submit, click the Submit Monthly Logs button.** The system performs validations for low and high edits. If the system does NOT detect any high or low edits for all records displayed, then you will receive a Successful Submission message from DESE.

**If the system has detected only Low Edit validations**, you will see the page refresh with a table that shows that you have consultant logs with a low edit. This could be that your assigned initiative percentages do not match compared to the hours that have been logged, or it could be that a staff member’s hours for a specific week are too high. If you have only LOW edits returned, you may chose to submit them to DESE. Click the Submit Monthly Logs button again. You will receive a Successful Submission message from DESE.

**If the system has detected a High Edit validation**, you will see the page refresh with a table that shows you the Event ID, the Error and the Status equal to High. You will NOT be allowed to submit ANY logs to DESE (regardless if other logs do not have error edit associated) until you, or the staff participant involved, has corrected the high error. This means that the missing log data must be entered and saved!!! Once the high edit has been corrected, you may begin the Submit Monthly Logs process again.

## What do the Reports do?

### Here's a brief description

All reports in the Left Navigation will have an initial ad-hoc search options for you to pick from. All require a Date to be selected; a grouping to be selected and all of them also have a Display button.

When you click on the Display button, the system performs a search that matches the internal criteria assigned to the report selected and the external ad-hoc criteria selected. The system returns the results on the page within the system. You will see the SSRS report reviewer toolbar at the top of the report. This is what you'll use to navigate between multiple pages, export to excel, csv or PDF, or to print.

Example of the toolbar

### What does the toolbar do?

If there are multiple pages, the toolbar will display 1 ... of 5, etc. You may either enter the number in the text box or use the navigation icons listed. You also have a number of options when it comes to exporting the report (see screen shot above).

**Now let's get started with the Reports!**

## What does the Preliminary Monthly Consultant Report do?

This report allows you to see all open, unsubmitted consultant logs for a specific month/year and to return the results according to a Specific Consultant, Specific Region or Statewide. Select the Month/Year date and pick a Region equal to a specific Region or Statewide to display. If you pick a particular consultant or region does not have any open, unsubmitted consultant logs, then the system will not return any records. After selecting your Month/Year, and Region or Consultant, then click the Display button. System will then search for the open logs that match the date selected, consultant and/or region selected. If you selected state wide, the system will search for all open, unsubmitted event logs for all regions. If system finds open, unsubmitted event logs that match the search criteria selected, the system will refresh the page and display the results in report format within the SSRS report viewer.

If you would like export your report, click the export (floppy disk) icon within the SSRS Toolbar. This will display the exporting options provided within the SSRS toolbar, as explained under the Brief Description section of this manual. After exporting, you may use excel or PDF print options for printing the report.

## What does the Event Log Data by Date Report do?

This report provides the user the ability to review all unsubmitted (open) event log data for a consultant according to the date the user selected for the log on the event data page. It also ties in the event ID number, the type of hour and hours logged to the type, and the Initiative Type selected including the CW (Collaborative Work) Detail value associated if the User has an initiative type equal to Collaborative Work (CW). For Regional Director and Consultants, this report will provide data to help assess if time needs to be adjusted between initiatives prior to submitting to DESE.

## What does the Monthly Logs by Initiative Report do?

This report provides a summarization of submitted (closed) consultants log data tied to the Event ID; RPDC Staff member; the Initiative Type and related Hours Logged / Type; and Mode of Contact as it relates to the associated Initiative Type. System default search/return criteria are Event ID number equal to submitted (closed logs). User may group the return by searching for submitted monthly log date MM/YYYY; for a specific Consultant, a Region; or All Regions.
