

## FALL PROFESSIONAL DEVELOPMENT WEEK 2019

Have you seen this program yet? Wow! Print and Braille books of your favorites pre-K books, such as Pete the Cat, The Very Hungry Caterpillar etc. This program is designed to teach the important skills of listening, speaking, reading, and writing to beginning braille learners at the preschool level. Your general education teachers will love this program And this PD is presented by **Cay Holbrook** from APH!

Audience: Special Ed Teachers, Gen Ed Teachers, Teachers of the VI, Early Interventionists, paraprofessionals, parents, Early Childhood Special Education

### Tuesday 9/10 Welcoming Students with a Visual Impairment/Blindness.

This presentation covers the basics of teaching students with a visual impairment/blindness. Accommodations, modifications, textbooks, low vision aids and Orientation and Mobility will be covered. An excellent course for those new to teaching the VI/B, special education administrators, related service providers, families and paraprofessionals.

### Wednesday 9/11-Deaf-Blind 101

Everything you need to know about your students with hearing and vision loss. Defining dual sensory losses and primary considerations will be addressed.

Audience: Special Ed Teachers, Gen Ed Teachers, Teachers of the VI, Early Interventionists, paraprofessionals, parents, Teachers of the Deaf

### Thursday 9/12 Haptics: Visual and Environmental Information for Individuals who have Vision & Hearing loss.

This is a great course for O&M personnel, interpreters, SSPs, physical therapists, paraprofessionals and those working with students with dual sensory losses. Haptics represents the practice of using various methods of touch on the body to convey visual, social, and environmental information to a person who is deaf-blind.
