

## Guidance for Reporting ECSE Students and Claiming PK State Aid

### ECSE Students Served by Resident District Only

Report ECSE Student as Resident Student (Residency Status = R1) in MOSIS Student Core File

Resident District may report attendance hours to claim PK State Aid for only the portion of time the student is not in the ECSE program

Resident District will report the IEP disability category

### ECSE Students Served by both Resident District and Non-Resident District (i.e. cooperative)

Students enrolled in Resident District's regular early childhood program may report ECSE Student as Resident Student (Residency Status = R1) in MOSIS Student Core File with IEP disability category = 00-None

Non-Resident District may report ECSE Student as Non Resident Student (Residency Status = NR) in MOSIS Student Core File with appropriate IEP disability category

However, FTE must equal 1.0 or less across both districts

Only one district can report disability category (district providing the special education services)

Resident District can report attendance hours to claim PK State Aid for only the portion of time the student is not in the ECSE program

### ECSE Students Served by Non-Resident District Only

Non-Resident District may report ECSE Student as Non Resident Student (Residency Status = NR) in MOSIS Student Core File

Non-Resident District should not claim PK State Aid

Non-Resident District will report the IEP disability category
