

Revenues

Revenues will be recorded on a gross basis. This policy will result in showing per revenue account the amount of all revenue received from all sources (i.e., local, state, federal). It will give adequate revenue information within the classification of accounts for budgeting, accounting and reporting purposes.

The revenue object code identifies the source of revenue and occupies the identical field in the code structure as the expenditure object codes. The revenue codes are, however, differentiated by the account classification code five (5) which precedes each revenue account while a six (6) precedes each expenditure object code. It may be noted that a revenue transaction will not have a function code; this field is zero filled or left blank. Code numbers in the **Class** column and middle (subclass) column ending in zero are for subtotaling purposes only and are **not** used for posting transactions.

Apportionment of Tax Revenue: Tax revenues in Current Taxes (revenue code 5111), Delinquent Taxes (revenue code 5112), TIF Surplus (revenue code 5116), County Stock Insurance Fund (revenue code 5222) and Federal Properties (revenue code 5231) should be apportioned into each fund according to the **adjusted** tax levy and must be carried to six decimal places rounded back to five.
